

Felt-Pads (Needlefelt)

Item-No.: 26SA102 ... 26SA147

Thanks to the top quality of pure needle felt, these felt glides with self-adhesive backing deliver outstanding performance when used. The furniture glides provide reliable protection against scratches, streaks, and damage, and their high-quality adhesive surface ensures operational safety and durability. This felt material also has a high density (approx. 800 g/sqm), offering enormous durability and resilience, harmonizing with countless materials and minimizing noise between objects. Application is very simple: after carefully cleaning the object, remove the backing film from the adhesive surface and press the felt glide firmly onto the object. After immediate basic adhesion, full holding power is achieved after just a few hours.

Technical Specifications

Material: Needle felt • Thickness: 4 mm • Glued surface: 3M Blue • Color: Grey, Black • Density: appx. 800 g/sqm • Shape versions: Round, Square, Rectangular, Roll • REACH compliant.
