

Hook & Loop Cable-ID-Tag Item-No.: 26CA783 ... 26CA798

Flexible labeling or color coding of cables, wires, cords, and small hoses is no longer a problem with these labeling tags. These labels can be easily opened and closed using Hook & Loop fasteners, allowing them to be quickly applied and removed. The smooth surface can be written on with a waterproof pen. Made of polyamide, the cable markers are very robust and resistant, temperature-stable, and suitable for applications such as cable labels, identification tags, clothing/textiles, and other areas of use.
