T² 25th Anniversary Edition

T² 25th Anniversary Edition

PRODUCT DESCRIPTION

Small but mighty: that is the T² tactical flashlight in a nutshell. It is one of the most beloved and well-known products in our portfolio—and stands firmly in our tradition as true LED pioneers. Ever since the first Ledlenser flashlight, the Photon Pump V8, was created shortly after the turn of the millennium, we have been developing portable light to accompany people at work, in everyday life and on outdoor adventures. The reimagined T² is no exception: it features a limited Dark Blue colorway and comes with an exclusive 25-year warranty*—a testament to the high quality, longevity and reliability of Ledlenser products.

FOOTNOTES

The information pertaining to scope of delivery, appearance, performance, dimensions and weight corresponds to the information available at the time of publication. In the interest of product development, we reserve the right to change scope of delivery, appearance, design and color without prior notice. Product images may vary from the actual products and may show optional accessories which can be purchased separately. Errors and omissions excepted.

1) Measured values according to ANSI/PLATO FL 1 in the respective setting named. If no setting is specifically named, the luminous flux (lumens/lm) and range (meters/m) values refer to the brightest setting and the burn time

(hours/h) values refer to the lowest setting. A boost function (if available) can be used several times, but is only available for a short time at a time. In case the lamp is equipped with colored LED(s), the measured values are given with white light or the white LED. If the lamp has different energy modes, the "energy saving mode" is the basis for the measurement.

3) EP patent 1880139; US patent 7,461,960.
