

Sticker Photo Paper

Step 1: Print

Place the white photo paper in the printer's paper tray with the print side facing down and the peel tab positioned toward the output end, and select your desired image or photo in the app.

Step 2: Cut out

Use the entire picture as is, or carefully cut it into your desired shape with scissors.

Step 3: Peel

To use the adhesive side, gently lift and pull the peel tab at the bottom to separate the backing from the sticker.
