Manual
PIKO SmartProgrammer-Stick
PIKO SmartProgrammerApp
For PIKO SmartDecoder XP from generation 5.1 onwards

Installation

PIKO SmartProgrammerApp

Compatible with Windows 11
Please download the PIKO SmartProgrammerApp to your PC via the Microsoft App Store or use the link in our web shop. Start the setup and follow the instructions. No further settings are necessary.

Connecting

The connections of the PSP-S

Connect a track or the PIKO SmartProgrammer-Connector (PSP-C) to the track connection of the PIKO SmartProgrammer-Stick using the green plug. Now plug the PIKO SmartProgrammer-Stick into the USB port of your device. The control LED on the stick will flash several times.

Your Windows PC will automatically detect a new USB device. The driver for the PIKO SmartProgrammer-Stick was already installed when you installed the PIKO SmartProgrammerApp.

Start the PIKO SmartProgrammerApp

Open the PIKO SmartProgrammerApp on your device.

After starting the app, you can configure some basic settings for how the app works in the settings menu.
Select ‘Continue’ in the header to proceed to the next step.

At this point, you can decide whether you want the basic settings of the app to be displayed again each time you start it.

Confirm your selection to go to the main menu of the PIKO SmartProgrammerApp.
Selecting the info button in the header will give you further information on the basic operation of the PIKO SmartProgrammerApp.

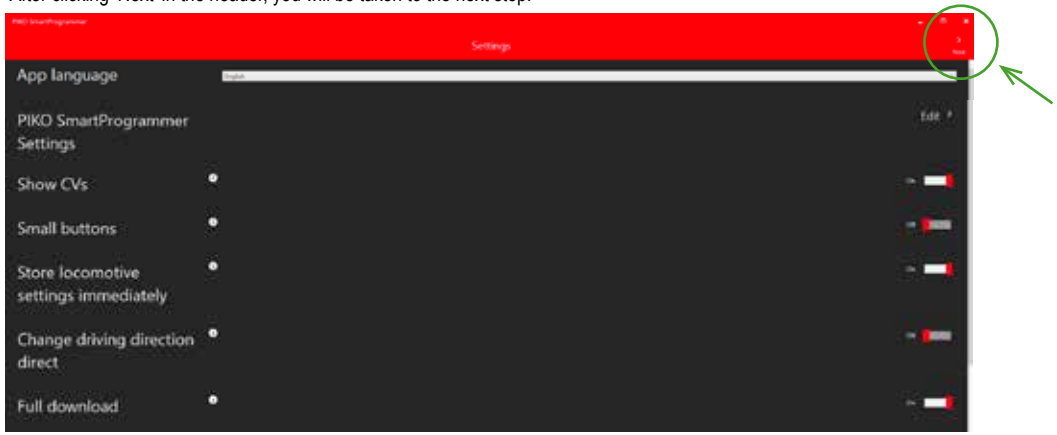

The ‘Expert’ button with the lock symbol switches the app to expert mode (the header turns blue). This mode is more complex, but allows you to use all the app‘s features.

LED indicators

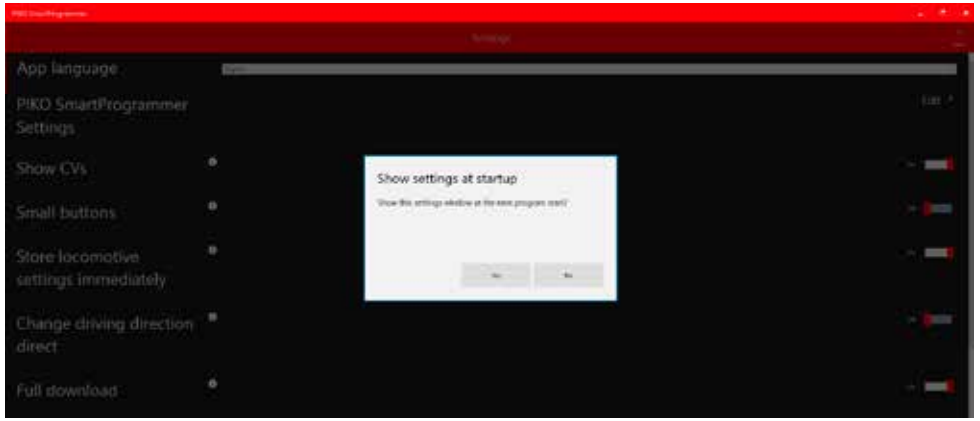

Flashing blue	→	Stick is starting up
Solid blue	→	Stick is ready for operation
Flashing yellow	→	Data transfer to the decoder
Solid green	→	Main track mode active
Flashing green	→	Programming track mode active
Flashing red	→	Short circuit
Solid red	→	Internal error

EU Declaration of Conformity
PIKO Spielwaren GmbH hereby declares that the product in its design and construction as well as in the version placed on the market by us complies with the basic safety, health and compatibility requirements of the directives and regulations mentioned. The full text of the EU Declaration of Conformity is available at the following internet address:
https://www.piko.de/konform

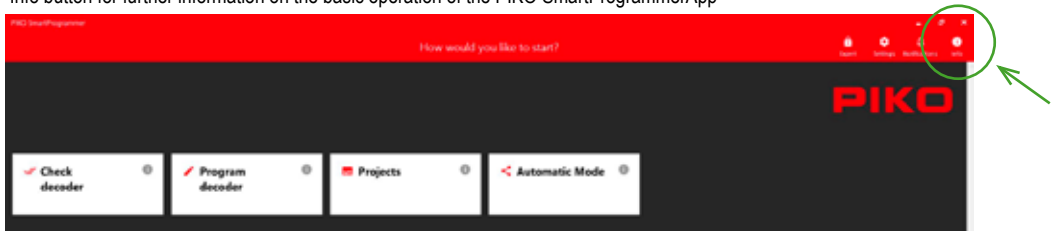

After clicking ‘Next’ in the header, you will be taken to the next step.

Show settings at startup again?

Info button for further information on the basic operation of the PIKO SmartProgrammerApp
