GREATE. LAMP CABLE E14

E14 SOCKET WITH CABLE & SWITCH

Our E14 lamp cable with integrated switch and Euro plug offers you a flexible and simple solution for lighting your interiors. Ideal for DIY lamp projects or as a replacement cable for your favorite lamp. With this cable, you can place your lighting exactly where you need it without sacrificing convenience or safety. Just plug it in and enjoy the light.

PRODUCT HIGHLIGHTS

- Use the E14 lamp socket with switch, fixing ring and power cable for your lighting installations, for example in the kitchen, living room or children's room.
- Screw a light bulb with an E14 thread (not included) into the bulb holder. Connect the lamp cable to an EU socket and switch on the light using the switch on the cable.
- Forget complicated lighting installations in walls and ceilings. All you need is a power socket - simply plug in the cable to immediately enjoy pleasant light and create a homely atmosphere.
- The integrated fixing ring makes it easy to use with a lampshade of your choice to give your home a fresh lighting accent.
- The socket is suitable for light bulbs with an E14 thread. These bulbs should not exceed a maximum wattage of 60W.
