REACH (EC) 1907/2006

Dear Sir/Madam,

Thank you for your enquiry regarding the duties to communicate information established in Article 33 of the REACH Regulation.

We, Adam Hall GmbH, sell articles and are therefore subject to the duties to communicate information to our customers established in Article 33 of the REACH Regulation if any of the products we supply contain a substance of very high concern (SVHC) in a concentration above 0.1% weight by weight.

The candidate list of SVHC is expanded twice a year and published on the website of the European Chemicals Agency (ECHA) at http://echa.europa.eu/web/guest/candidate-list-table.

In our own interest and to ensure high delivery reliability and product safety, we take these duties to communicate information extremely seriously. We comply with the legal requirements established in Article 33 of the REACH Regulation through the use of the following procedures:

- EU article suppliers are also obliged to notify us without solicitation or delay if any of the products they supply contain an SVHC in a concentration above 0.1% weight by weight.
- All relevant EU suppliers must also once again provide us with written assurance that the legally required duty to communicate information is actually complied with.
- We enter into separate agreements will all non-EU article suppliers as these are not automatically subject to the REACH duties to communicate information. Non-EU suppliers must therefore provide us with written assurance that they will immediately inform us if any of the products supplied to us contain an SVHC in a concentration that exceeds the threshold of 0.1 % weight by weight and that the products supplied do not contain any SVHC > 0.1% .
- We also regularly conduct random sampling of our products and authorise the relevant tests.

From 05 January 2021, a SCIP Notification to ECHA is required for any articles containing Substances of Very High Concern (SVHCs) on the Candidate List in concentrations greater than 0.1% weight by weight (w/w)
You will find the products with the corresponding SCIP registration enclosed.

If you have any further questions, please do not hesitate to contact us.

Yours faithfully,

Neu-Anspach, 04.02.2026
Diana Schöneich
COO

REACH (EG) 1907/2006

Sehr geehrte Damen und Herren,

vielen Dank für Ihre Anfrage zu den Informationspflichten nach Art. 33 der REACH-Verordnung.

Wir, die Adam Hall GmbH, verkaufen Erzeugnisse, damit unterliegen wir gegenüber unseren Kunden den Informationspflichten nach Art. 33 der REACH-Verordnung, sofern in einem von uns gelieferten Produkt ein besorgniserregender Stoff (SVHC-Stoff) in einer Massenkonzentration über 0,1 Prozent enthalten ist.

Die Kandidatenliste der SVHC-Stoffe wird zweimal jährlich erweitert und ist auf den Internetseiten der Europäischen Chemikalienagentur (ECHA) veröffentlicht http://echa.europa.eu/web/guest/candidate-list-table.

Im eigenen Interesse und vor dem Hintergrund einer hohen Liefer- und Produktsicherheit nehmen wir diese Informationspflichten sehr ernst. Den gesetzlichen Vorgaben nach Art. 33 der REACH-Verordnung kommen wir durch die folgende Vorgehensweise nach:

- Die EU-Lieferanten von Erzeugnissen, sind ebenso verpflichtet, uns unaufgefordert und ohne Verzögerung zu informieren, sofern in den von ihnen gelieferten Produkten ein SVHC-Stoff über 0,1 Massenprozent enthalten ist.

- Von allen relevanten EU-Lieferanten lassen wir uns darüber hinaus noch einmal schriftlich versichern, dass diese gesetzlich vorgeschriebene Informationspflicht tatsächlich erfüllt wird.

- Mit allen Nicht-EU-Lieferanten von Erzeugnissen, treffen wir gesonderte Vereinbarungen, da sie den REACH-Informationspflichten nicht automatisch unterliegen. Deshalb lassen wir uns von Nicht-EU-Lieferanten schriftlich versichern, dass wir unmittelbar informiert werden, sofern in einem an uns gelieferten Produkt die 0,1 Massenprozentschwelle für einen SVHC-Stoff überschritten wird bzw. dass keine SVHC-Stoffe > 0,1 % in den gelieferten Produkten enthalten sind.

- Des Weiteren nehmen wir regelmäßig Stichproben von unseren Produkten und veranlassen endsprechende Prüfungen

Seit dem 05. Januar 2021 ist eine SCIP-Anmeldung bei der ECHA für alle Erzeugnisse erforderlich, die besonders besorgniserregende Stoffe (Substances of Very High Concern (SVHCs) der Kandidatenliste in Konzentrationen von mehr als 0,1 Gewichtsprozent (w/w) enthalten.
Die Produkte mit entsprechender SCIP-Registrierung finden sie anbei.

Falls Sie weitere Fragen haben können Sie sich gerne mit uns in Verbindung setzen.

Mit freundlichen Grüßen

Neu-Anspach, 04.02.2026
Diana Schöneich
COO
