Software de transmisión de datos para mediciones de fuerza/tiempo

Características

- No menos de mediciones de fuerza se pasan en espacios de tiempo muy ahogados – a veces sólo dentro de pocos segundos
- Este tasa de transmisión rápida con hasta de 20 datos por segundo se puede realizar con la combinación de los medidores de fuerza SAUTER FH, FC o FL y el software AFH FAST
- Con AFH FAST se registra una curva de fuerza/tiempo y los datos de medición pueden ser exportados a Microsoft Excel®
- Compatible con el siguiente sistema operativo: Microsoft Windows 10®

Datos técnicos

- Velocidad de registro de datos en torno a 20 valores de medición por segundo con SAUTER FH, FC, FL, DA y DB

Accesorios

- 1** RS-232/USB-adaptador, para la conexión de aparatos periféricos con conexión USB, SAUTER AFH 12
- Adaptador RS-232/Ethernet para la conexión a una red Ethernet con dirección IP, KERN YKI-01
