

GC VitalCharger

Rechargeable AA/AAA battery charger

Provide your devices with uninterrupted access to energy thanks to the Green Cell battery charger.

Give up disposable alkaline batteries and contribute to environmental protection.

GC VitalCharger features:

- Micro USB and USB-C ports - for fans of classic and modernity
- LED lights indicating the charging process and batteries condition
- Charging up to four AA and AAA batteries at the same time
- All four slots can charge independently
- Well-thought design that provides easy access and prevents batteries from falling out
- Durable ABS plastic housing with non-slip elements

GC VitalCharge can be used with any source of power, regardless of whether you have a wall charger, car charger, laptop or even a Power Bank. Just plug it into a USB port and the charging process will start automatically!
