

## Product information

# 15 19 006

- Stripping tweezers for coated wire are used to remove insulating coatings from wires, especially for industrial use
- For the electronics industry, as well as repairs and handicrafts
- Also available: four spare blades for different diameters

## 1 pair of spare blades for 15 11 120

Ø 0,6 mm

### General

|                  |                                                                  |
|------------------|------------------------------------------------------------------|
| Article No.      | 15 19 006                                                        |
| Reference number | 253040-P06                                                       |
| EAN              | 4003773021568                                                    |
| Material         | tweezers body: spring steel, oil-hardened handle shells: plastic |
| Weight           | 4 g                                                              |
| Dimensions       | 10 x 4 mm                                                        |
| REACH compliant  | does not contain SVHC                                            |
| RoHS compliant   | not applicable                                                   |

### Technical details

|                      |             |
|----------------------|-------------|
| Tweezers tip version | Stripping   |
| Acid resistance      | very good   |
| ESD-tested           | no          |
| VDE tested           | no          |
| Sectors              | electronics |
| Behaviour            | Conductive  |

*technical change and errors excepted*
