

Combi set solder connectors and heat shrink tubing (920 parts) - Type: 2107C406

This set contains a 120-piece premium butt connector assortment in the shrink ratio 2:1 in an application range for cable cross sections from 0.25 to 6 qmm. The hot melting inner adhesive closes watertight when correctly overlapped - the solder ring connects the two conductors during the shrinking and melting process! The application is very simple: strip the cable and insert it on both sides into the connector until the stripped cable ends overlap under the solder ring, or twist. Heat evenly in the melting temperature range until the solder is melted - optimally with a heat gun, a hot air blower or a hot air dryer - done.

Also included are premium shrink tubes of shrink ratio 2:1 in various lengths and diameters from 1.5 to 12 mm in an extra assortment box.

Scope of delivery: Transparent assortment box with 120 solder connectors, transparent assortment box with 800 shrink tubes.

Content

- Soldering connector yellow 20 pcs. Ø 6 mm, length 40 mm, for cable 4.0 ... 6.0 qmm (AWG 12-10)
- Soldering connector blue 40 pcs. Ø 4.5 mm, length 40 mm, for cable 1.5 ... 2.5 qmm (AWG 16-14)
- Soldering connector red 40 pcs. Ø 2.7 mm, length 40 mm, for cable 0.5 ... 1.0 qmm (AWG 22-18)
- Soldering connector white 20 pcs. Ø 1.7 mm, length 26 mm, for cable 0.25 ... 0.34 qmm (AWG 26-24)
- Heat shrinkable tubing 300 pcs. - Ø 1,5 mm - length - 45 mm, Black
- Heat shrinkable tubing 220 pcs - Ø 2,5 mm - length - 45 mm, black
- Heat shrinkable tubing 60 pcs - Ø 3,5 mm - length - 65 mm, Black
- Heat shrinkable tubing 30 pcs - Ø 5 mm - length - 65 mm, Black
- Heat shrinkable tubing 25 pcs - Ø 6 mm - length - 45 mm, Black
- Heat shrinkable tubing 55 pcs - Ø 8 mm - length - 45 mm, Black
- Heat shrinkable tubing 55 pcs - Ø 9 mm - length - 65 mm, Black
- Heat shrink tubing 55 pcs - Ø 12 mm - length - 65 mm, Black
