# SILICONE BRUSH

---

Silicone brush is a high-quality silicon with an integrated metal frame for stability. The flexible long bristles make it easy to reach difficult spots on the printed model.

- Dimensions: 33x11x208mm

## **Application**

### **for applying RESIN CLEANER or ISOPROPANOL**

General precautions when working with RESIN CLEANER or ISOPROPANOL apply. Fill Liquid into a small container or use the container for uncured resin removal. Brush liquid on hard to reach places.

## **Disposal**

Remove any residue of applied material and dispose with household waste.
