

Download the Nordlux Smart Light app from the App Store or Goggle Play.

Connect your Nordlux Smart Light Bridge – remember to turn on the light switch.

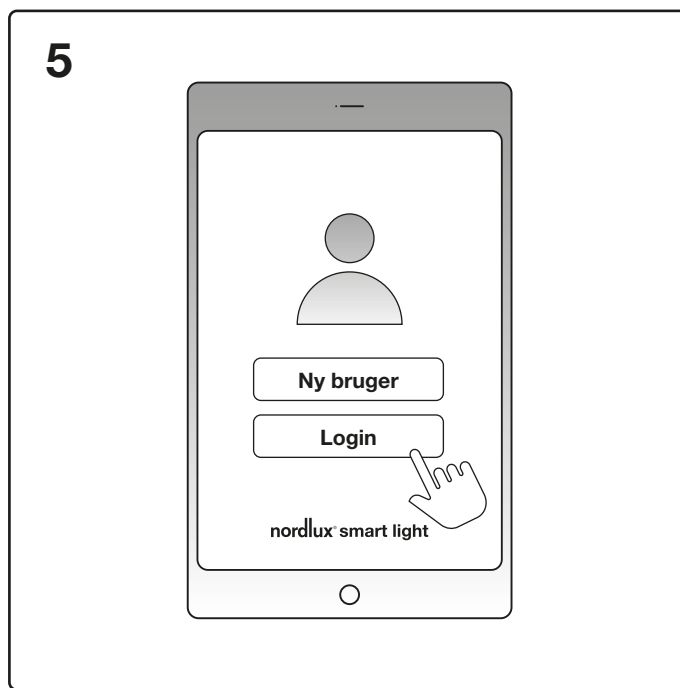

Select access to the unit's placement in the Nordlux Smart Light app.

Select 'Setup with Bridge' in the Nordlux Light app.

*If the bridge does not show in the Nordlux Smart Light app, it can be reset by sticking a pointed object in here.

Create a new user or login if you are already a user.

Select 'Smart Light Bridge' by pressing the button saying 'Smart Light Bridge'

Connect to your Wi-Fi. It is important that the selected Wi-Fi is only 2.4GHz. Nordlux Smart Light Bridge only works with 2.4GHz. Select 'Start'.

Smart Light Bridge is installed*. Select 'Go to my home'.

*If the light on the back of the Smart Light Bridge is flashing, it means that a connection is established.

The installation is completed. You can now use your Smart Light Bridge. Enjoy.

START SMART
