**FOR LANDSCAPE AND
SKY OBSERVATION**

High Magnification

Telescope kit has 3 eyepieces (6, 12.5 and 20 mm; 50x, 24x, 15x magnification); Erecting Eyepiece (max. 75x magnification); Barlow lens (max. 150x magnification).

Full Height Adjustable Tripod

This Telescope for kids has adjustable tripod with handle. So does not matter if your child or toddler is tall or not, he/she will be able to set right height with the tripod.

Useful filters

The telescope kit has Green light and Sunlight filters. The Green light filter enables a strong contrast enhancement e.g. on the moon and the sunlight filter reduce the sun brightness effect.
