- Viewing angle 100°
- 18 IR LEDs for night lighting
- IP 69K Certification
- Automatic pairing with the monitor

COMPLIANCE

Equipment compliant with RE-D
2014/53/UE

TRUCK GUARDIAN PRO is the evolution of the Truck Guardian Wireless truck camera.

Truck Guardian Pro is a kit consisting of a monitor + camera that can help the truck driver with extra control, thanks to the recording on an SD card.

TRUCK GUARDIAN PRO is equipped with:

- a 7" monitor with an improved resolution from 480p to 1080p that provides sharper images
- a single antenna, shorter than 10 cm, which allows an aesthetic improvement and comfortable compactness of the monitor
- buttons on the monitor modified, are now pressed, to avoid inconveniences due to an accidental touch
- a smaller and a compact camera with easy installation
- improved infrared LEDs for night vision
- a longer power cable and no jack.

The coverage between monitor and camera has been doubled, which guarantees a good image reception even if, in cases of cargo surveillance, the camera is placed in "armoured" environments such as containers.

A kit designed to facilitate every reverse manoeuvre and monitor every type of trailer.
