Camping & Hiking & Mountaineering & Household

## DESCRIPTION

The Baton 3 Pro is the upgraded version of S2R Baton II. It is more powerful with up to 1,500 lumens, an increase of 30% from the S2R Baton II. Compared with the previous proximity sensor, the new and technologically advanced hidden one is designed to increase the flashlight light output during daily use, while automatically reducing the brightness when the sensor detects an obstruction nearby. With two color temperature options, cool white and neutral white, it meets a variety of needs and can tackle any scenarios. The enlarged concave side switch makes it more comfortable to touch and easy to operate. With the customized 18650 3200mAh rechargeable lithium-ion battery, it is fully charged in 3.5 hours using a USB magnetic charging cable. You can run the Baton 3 Pro for up to incredible 120 days. The included L-shape stand is used to store the flashlight conveniently after use. The widened and lengthened two-way clip is more secure when clipping in the pocket and backpack. The new body knurling design is more non-slip and comfortable to grip. Fully upgraded, the Baton 3 Pro will bring you a better EDC flashlight experience.

## FEATURES

- **Higher Output:** It delivers a max. output of 1,500 lumens and max. throw of 175 meters, powerful and useful in outdoor activities.
- **Hidden Proximity Sensor:** Designed to increase the flashlight light output during daily use, while automatically reducing the brightness when the sensor detects an obstruction nearby.
- **Two Color Temperature Options:** Cool white and neutral white, select the color temp. you like or the one that is more suitable to meet your daily need.
- **Larger Side Switch:** The newly enlarged, concave side switch is now even easier to use, and it simultaneously reduces the chance of accidental activation.
- **Longer Runtime:** It runs up to 120 days, perfect for long hours of work.
- **Magnetic Charging:** With the MCC3 USB magnetic charging cable, it's easily fully charged in 3.5 hours.
- **Convenient to Store:** The included L-shape stand, which can be stuck anywhere, makes it easier for you to store the flashlight after use.
