# EcoSavers®

## USB Timer Charger

### USB | Type Output 20W

The EcoSavers USB Timer Charger is a handy device for all your USB powered or USB rechargeable products.

Never power or charge the device longer as needed, just select the required hours: 1, 2, 3 or 4 hours.

The LED colour ring shows you exactly how many hours you have set the timer and during operation, you can see the remaining time, as the last hour or remaining time is flashing gently.

1 hour setting

2 hour setting

3 hour setting

4 hour setting
