

GO★FIND SERIES
METAL DETECTORS

GO WILD. FIND ADVENTURE.

Go wild and find adventure with the **all-new GO-FIND series.**

GO★FIND^{SERIES}

METAL DETECTORS

Solve mysteries and find fortunes with the all-new GO-FIND series by Minelab — a compact detector for beginners that's big on performance. With its four Find Modes, Treasure View and Easy-Trak technology the GO-FINDs will have you detecting like a pro in just minutes. And recovering more finds time after time. It's the perfect detector to ignite your passion for detecting whether you're searching on land or in the water.

THE SMART DETECTOR CHECKLIST

- ✓ **COMPACT:** Size Matters. Simply unfold and away you go.
- ✓ **LIGHTWEIGHT:** 20% Lighter* — Detect all day. And the next.
- ✓ **EASY-TRAK:** From parks to beaches. Just set and go.
- ✓ **SMARTPHONE APP*:** Remote control. Now that's handy.
- ✓ **COIN ID MAGIC*:** Show me the money. Even if it's buried.
- ✓ **TREASURE VIEW*:** Trash or treasure? Know before you dig.
- ✓ **BLUETOOTH AUDIO*:** Wireless detecting? Music to your ears.

* Based on similar competitor offerings * Only available on GO-FIND 44 or 66 models

FIND MODES: Icons flash to tell you what you've found. You can even tell GO-FIND what sets of objects you want to target by selecting up to four pre-set modes.

SMARTPHONE APP*: REMOTE CONTROL OVER YOUR DETECTOR. NOW THAT'S HANDY.

Even though you're detecting miles away from anywhere, you can stay connected with the GO-FIND app. Imagine listening to your favourite tracks, or recording your finds while you hunt. It's all possible with the GO-FIND app, which is perfectly in tune with your detector.

What's more Coin ID Magic and its four find modes helps you identify what type of coins you have found — even while they're still buried in the ground. GO-FIND with smartphone app: Welcome to the future.

TREASURE VIEW*: TRASH OR TREASURE? KNOW BEFORE YOU DIG.

When it comes to detecting, there's really only two things you want to know: is it trash or is it treasure? So with this in mind, Minelab designed the GO-FIND to feature the amazing Treasure View LEDs, which light up and change colour to help you identify what you've found before you dig.

Green lights indicate non-iron objects like coins or jewelry, while red lights indicate iron objects such as nails or keys. GO-FIND with Treasure View: It's detecting made simple.
