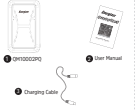
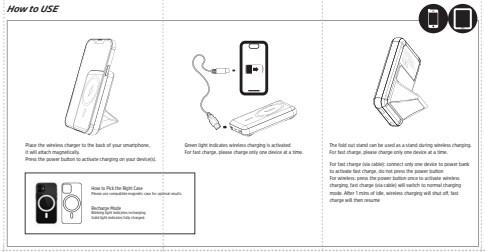
Specification :
Model Name : QM10002PQ
Cell Type : Lithium Polymer
Battery Capacity : 10000mAh/38.5Wh(Max.)
Rated Input : USB-C PD 5V/3A, 9V/2A
Rated Output 1 : USB-A 4.5V/5A, 5V/4.5A, 5V/3A, 9V/2A, 12V/1.5A
Rated Output 2 : USB-C PD 5V/3A, 9V/2.22A, 12V/1.5A
Wireless Output : 5W/7.5W/10W/15W
Total Output : 22.5W (Max.)
Dimensions : 172.4(L) x68.5(W) x22(H) mm
Weight : 238g/10g

Package Contents



How to USE



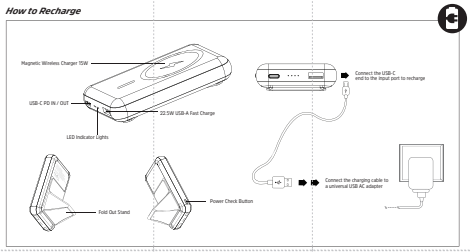
Place the wireless charger to the back of your smartphone, it will attach magnetically.
Press the power button to activate charging on your device(s).

Green light indicates wireless charging is activated
For fast charge, please charge only one device at a time.

The fold out stand can be used as a stand during wireless charging.
For fast charge, please charge only one device at a time.

For fast charge (via cable): connect only one device to power bank to activate fast charge, do not press the power button
For wireless: press the power button once to activate wireless charging, fast charge (via cable) will switch to normal charging mode. After 5 mins of idle, wireless charging will shut off, fast charge will then resume

How to Recharge



Warning:
Changes or modifications to this unit not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

NOTE:
This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions:
(1) This device may not cause harmful interference, and
(2) this device must accept any interference received, including interference that may cause undesired operation.
FCC Warning Statement:
This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:
• Reorient or relocate the receiving antenna.
• Increase the separation between the equipment and receiver.
• Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
• Consult the dealer or an experienced radio/TV technician for help.
NOTE: This device complies with part 18 of the FCC Rules.
Information to the user.
1. the device has potential interference,but the interference is very small and meets the requirements of the FCC rule
2. Equipment system maintenance is simple, please refer to the manual
3. The user can take simple measures to correct the interference, Such as staying away from interference source, turning off interference source, etc.
RF exposure compliance statement:
The equipment complies with FCC Radiation exposure limit set forth for uncontrolled environment. This equipment should be installed and operated with minimum distance 20cm between the radiator and your body.

PowerSafe Management
Guarantees against short circuit and over-charging for your power banks and devices.

PL

Specyfikacja :
Nazwa modelu : QM10002PQ
Typ komórki : Polimer litowo-jonowy
Pojemność baterii : 10000mAh/38.5Wh (Max.)
Napięcie wejściowe : USB-C PD 5V/3A, 9V/2A
Napięcie wyjściowe 1 : USB-A 4.5V/5A, 5V/4.5A, 5V/3A, 9V/2A, 12V/1.5A
Napięcie wyjściowe 2 : USB-C PD 5V/3A, 9V/2.22A, 12V/1.5A
Wyjście bezprzewodowe : 5W/7.5W/10W/15W
Całkowite wyjście : 22.5W (Maks.)
Wymiary : 172.4(L) x68.5(W) x22(H) mm
Waga : 238g±10g

Zawartość paczki

1 QM10002PQ
2 Instrukcja obsługi
3 Instrukcja obsługi

Jak UŻYĆ

Umieść ładowarkę bezprzewodową na tylnej części swojego smartfona, przylgnie ona magnetycznie.
Naciśnij przycisk zasilania, aby aktywować ładowanie na swoim urządzeniu/urządzeniach.

Jak wybrać odpowiednią obudowę
Do optymalnych wyników należy stosować niemetaliczną, magnetyczną obudowę.

Tryb ładowania
Migające światło oznacza ładowanie.
Stałe światło oznacza, że jest w pełni naładowane.

Zielona dioda sygnalizuje aktywowaną ładowarkę bezprzewodowego.
Dla szybkiego ładowania proszę ładować tylko jedno urządzenie na raz.

Stojak wysuwany może być używany jako stojak podczas ładowania bezprzewodowego.
Dla szybkiego ładowania proszę ładować tylko jedno urządzenie na raz.

Dla szybkiego ładowania (przez kabel): podłącz tylko jedno urządzenie do banku energii, aby aktywować szybkie ładowanie, nie naciskaj przycisku zasilania.
Dla ładowania bezprzewodowego: naciśnij przycisk zasilania raz, aby aktywować ładowanie bezprzewodowe. Szybkie ładowanie (przez kabel) przełączy się w tryb normalnego ładowania. Po 1 minucie bezczynności ładowanie bezprzewodowe zostanie wyłączone, a szybkie ładowanie zostanie wznowione.

Jak Naladować

Magnetyczna ładowarka bezprzewodowa 15W
USB-C PD WEJ/WYJ
Indobile ładowanie USB-A 22.5W
Wskaźniki LED
Stojak wysuwany
Przycisk sprawdzania zasilania
Podłącz końcówkę USB-C do portu wejściowego, aby naładować.
Podłącz kabel ładowania do uniwersalnego adaptera sieciowego USB.

Изтегляне на ръководство

BG

Спецификация :
Модел: QM10002PQ
Тип на клетката: Литиев полимер
Капацитет на батерията: 10000mAh/38.5Wh (макс.)
Оценен вход: USB-C PD 5V/3A, 9V/2A
Оценен изход 1: USB-A 4.5V/5A, 5V/4.5A, 5V/3A, 9V/2A, 12V/1.5A
Оценен изход 2: USB-C PD 5V/3A, 9V/2.22A, 12V/1.5A
Безжичен изход: 5W/7.5W/10W/15W
Обща мощност: 22.5W (макс.)
Размери: 112.4(L) x 68.5(W) x 22(H) мм
Тегло: 238г ± 10г

Съдържание на опаковката

1. QM10002PQ
2. Потребителско ръководство
3. Зарядващ кабел

Как да използвате

Поставете безжичния зарядник на гърба на вашия смартфон, ще се закрепи магнитно.
Натиснете бутона за включване, за да активирате зарядното на вашето устройство.

Как да изберете правилния кабел
Micro5, използвайте същия тип кабел с вашето за оптимална ефективност.

Режим за презареждане
Мигащата светлина показва, че се презарежда.
Непрекъснатата светлина показва, че е напълно заредено.

Зелената светлина показва, че безжичното зарядване е активирано.
За бързо зареждане, моля, зареждайте само едно устройство наведнъж.

Издърпаването поставя модел да се използва като стойка по време на безжично зареждане.
За бързо зареждане, моля, зареждайте само едно устройство наведнъж.

За бързо зареждане (чрез кабел): свържете само едно устройство към мобилната батерия, за да активирате бързото зареждане, без да натискате бутона за включване.
За безжично зареждане: натиснете веднъж бутона за включване, за да активирате безжичното зареждане.
Бързото зареждане (чрез кабел) ще промени в нормален режим, ако използвате 2 или повече устройства.
Безжичното зареждане ще се изключи, след като бъдете заредени ще се възобнови.

Как да презаредите

Магнитен безжичен зарядник 15W
USB-C PD ВХОД/ИЗХОД
Светодиодни индикатори
Изходяща стойка
Бутон за проверка на зареждането
Бързо зареждане 22.5W USB-A
Свържете USB-C кабел към входящ порт, за да презаредите
Свържете зарядния кабел към универсален USB AC адаптер.

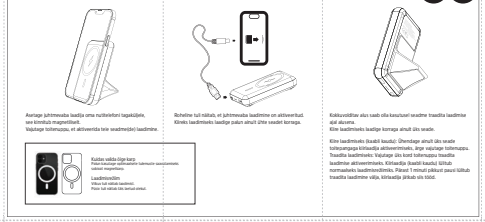
Kuidas kasutada



Asetage juhtmevaba laadija oma nutitelefoni tagaküljele, see kinnitub magnetiliselt.
Vajalikuga toimetuppu, et aktiveerida teie seadmestiku laadimine.

Kuidas valida õige karu
Pidev kaustage optimaalseim tulemuste saavutamiseks.
Lisateavet magnetilisus.

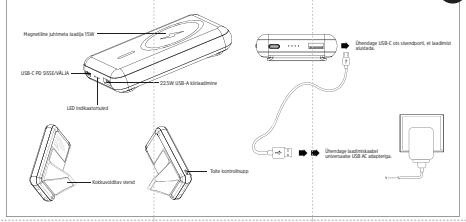
Laadimisviis
Võtke tal tellisk laadimist.
Pisse tal tellisk üle lamast ehetut.

Asetage telefon laadijale nii, et see oleks keskel. Kinnitub laadimiseks laadijale pukn ainult ühte viisidel korraga.

Kokkuvoldiltav alus saab olla kasutusel seadme traadita laadimise ajal aksuma.
Kõne laadimiseks laadige korraga ainult üks seade.

Kõne laadimiseks (kaabli kaudu): Ühendage ainult üks seade tohtenpanaga kõrtkaudija aktiveerimiseks, ärge vajutage tohtenpuppu. Traadita laadimiseks: Vajutage üks korrd tohtenpuppu traadita laadimise aktiveerimiseks. Kõrtkaudija (kaabli kaudu): Lülitub normaalseks laadimisrežiimiks. Pärast 1 minutit pikkust pausi lülitub traadita laadimine välja, kõrtkaudija jõlitub siis tõlid.

Kuidas laadida



Warning:

Changes or modifications to this unit not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

NOTE:
This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions:
(1) This device may not cause harmful interference, and
(2) this device must accept any interference received, including interference that may cause undesired operation.
FCC Warning Statement:
This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:
• Reorient or relocate the receiving antenna.
• Increase the separation between the equipment and receiver.
• Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
• Consult the dealer or an experienced radio/TV technician for help.
NOTE: This device complies with part 18 of the FCC Rules.
Information to the user.
1. the device has potential interference,that the interference is very small and meets the requirements of the FCC rule
2. Equipment system maintenance is simple, please refer to the manual
3. The user can take simple measures to correct the interference. Such as staying away from interference source, turning off interference source, etc.
RF exposure compliance statement:
The equipment complies with FCC Radiation exposure limit set forth for uncontrolled environment. This equipment should be installed and operated with minimum distance 20cm between the radiator and your body.

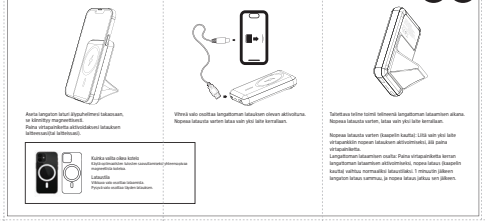
Lataa käyttöohje

FI

Kuinka käyttää



Aseta langaton laturi alustalleen. se kiinnittyy magneettisesti.
Paina virtapainiketta aktivoidaksesi latauksen tolleeraatiat latteessasi.

Kuinka valita oikea kohtio
Käytä optimaalisten tulosten saavuttamiseksi ollemmaisuksia magneettisia kohtioa.

Latauotta
Mikäsa aika asettaa latauotta.
Kytkeä aika aikaisin ne pois päältä.

Vihreä valo osoittaa langattoman latauksen olevan aktivoituna. Nopeasa latausta varten latua vain yksi laite kerrallaan.

Talteltaa telne toimii telinevanä langattoman latuamisen aikana. Nopeasa latausta varten, latua vain yksi laite kerrallaan.

Nopeasa latausta varten (kaapelin kautta): Liitä vain yksi laite virtapainikkin nopeam latuuksen aktivoimiseksi. Älä paina virtapainiketta.
Langattoman latuamisen osalta: Paina virtapainiketta kerran langattoman latuamisen aktivoimiseksi, nopeaa latuu (kaapelin kautta) vaihtoa normaalisti latuutilaksi. 1 minuutin jälkeen langaton latuus sammuu, ja nopeaa latuu jatkuu sen jälkeen.

Milten ladataan

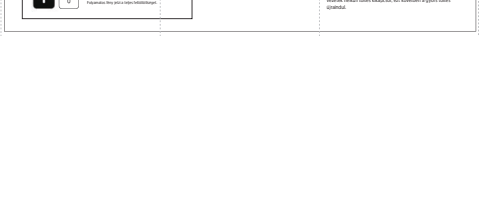
Letöltési kézikönyv

HU

Hogyan használjuk



Helyezze a vezeték nélküli töltőt okostelefonja hátoldalára, az mágnesesen rögzül.
Nyomja meg a bekapcsoló gombot az eszköz(ök) töltéséneek aktiválásához.

Hogyan válasszuk ki a megfelelő tokot
Használjon kompatibilis mágneses tokot optimális eredmények eléréséhez.

Töltési mód
Válassza ki az időtartamot.
Folyamatos lítés után a tolja leválasztásával.

A első lépés jelzi, hogy a vezeték nélküli töltés aktív. Ügyes töltőkihez kerülje, töltse csak egy eszközt egyszerre.

A kihajtható állvány használatakor állványként vezeték nélküli töltés töltheti.
Gyors töltőtechnológia: Csak egy eszközt csatlakoztasson a power bankhoz gyors töltés aktiválásához, ne nyomja meg a bekapcsoló gombot.
Normál töltőtechnológia: Nyomja meg egyszer a bekapcsoló gombot a vezeték nélküli töltés aktiválásához, a gyors töltés (kábel segítségével) normál töltési módba vált. 1 perc tétlenség után a vezeték nélküli töltés kikapcsol, ezt követően a gyors töltés szünetel.

Hogyan töltheted újra

Einkunnarlit útlit 1: USB-A 4.5V/5A, 5V/4.5A, 5V/3A, 9V/2A, 12V/1.5A
Einkunnarlit útlit 2: USB-C PD 5V/3A, 9V/2.22A, 12V/1.5A
Úrsaufur útgangur: 5W/7.5W/10W/15W
Heildarútgangur: 22.5W (hámark)
Stærðir: 172.4(L) x 68.5(B) x 22(H) mm
Þyngd: 238g±10g

Innihald pakkningar

1. QM10002PQ
2. Notkunarleiðbeiningar
3. Hleðslukefli

Hvernig á að nota

Settið þráðlausa hleðslutækið á bak hátima símanum (síma, bað mun festast magnetic.
Ýttið á aflhnappinn til að virkja hleðslu á tækinu ykkar.

Hvernig á að velja réttu vörn
Virkar með hvaða símtæki sem er með þráðlausri hleðslu sem er samhæft við Qi staðal.
Hulstur eða hlíf getur haft áhrif á hleðsluhraða.
Hulstur eða hlíf getur komið í veg fyrir hleðslu.
Fjarlægðu hulstur eða hlíf til að ná sem bestum árangri.

Gramm (grá) birtist þegar þráðlaus raftöldum er virk.
Til fjöldu raftöldunar, símsambegast hleðið bara einn tæki í einu.

Ólöggjafarlegt standurinn gerður verið notaður sem standur á meðan þráðlaus hleðsla stendur.
Fyrir hröðu hleðslu, símsambegast hleðið aðeins eitt tæki í einu.

Fyrir hröðu hleðslu (með snúru): tengdi aðeins eitt tæki við raftöldunina til að virkja hröðu hleðslu, eða ýtið á aflhnappinn
Fyrir þráðlausa hleðslu: ýtið á aflhnappinn einu sinni til að virkja þráðlausa hleðslu, hröð hleðsla (með snúru) mun slökkva eftir í venjulegt hleðsluhraða. Eftir 1 mínútu lítmtíð mun þráðlausa hleðslan slökkva, hröð hleðsla mun þá endurhlaða.

Hvernig á að endurhlaða

Magnetískur vinjalsjálfshleðsla 15W
USB-C PD INN/ÚT
22.5W USB-A fjöltur hleðsla
LED Vísingarljós
Samhliðandi standur
Rafmagnsgarnaleki
Tengdu USB-C endanum í innstæðuopinn til endurhleðslu
Tengdu hleðslusnúr við algeimtegan USB AC-vöggum.

Iepakojuma saturs

1. QM10002PQ
2. Lietotāja rokasgrāmata
3. Lādēšanas kabelis

Kā izmantot

Novietojiet bezvadu uzlādētāju uz jūsu viedtālruņa aizmugurī, tas piesķiņsies magnētiski.
Nospiediet ieslēgšanas pogu, lai aktivizētu uzlādi jūsu ierīcēm.

Kā izvēlēties pareizo gadījumu
Lūdzu, izmantojiet vadītāju magnētisko gadījumu optimālam rezultātam.
Uzlādes režīms
Pievienot kabeli, lai sāktu lādēšanu.
Produktiem jāspēmas vienlaikā mobilie ar vienlaikā uzlādi.

Zaļā gaismina norāda, ka bezvadu uzlāde ir aktivizēta.
Ātrai uzlādei, lūdzu, uzlādēt tikai vienu ierīci pa vienai.

Ielādējamais statīvs var tikt izmantots kā statīvs bezvadu uzlādes laikā.
Ātrai uzlādei lūdzu uzlādējiet tikai vienu ierīci vienlaikus.

Ātrai uzlādei (ar kabeli): pievienojiet tikai vienu ierīci maitināšanas bankam, lai aktivizētu ātru uzlādi, nepiesakarinkies poga
Bezvadu veidā: nospiediet pogu vienu reizi, lai aktivizētu bezvadu uzlādi, ātrā uzlāde (ar kabeli) pārslēgsies uz normālu uzlādes režīmu. Pēc 1 minūtes neaktivitātes bezvadu uzlāde izslēgsies, pēc tam atsākšies ātrā uzlāde.

Kā uzlādēt

Magnētiskais bezvadu uzlādētājs 15W
USB-C PD (IEEJAMA/IZEJAMA
22.5W USB-A ātrā uzlāde
LED indikatori
Ielādējams statīvs
Bambalamas pārlocuiem poga
Pievienojiet USB-C galu ierīces portam, lai uzlādētu
Pievienojiet uzlādes kabeli universālam USB AC adapteram.

Warning:

Changes or modifications to this unit not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

NOTE:
This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions:
(1) This device may not cause harmful interference, and
(2) this device must accept any interference received, including interference that may cause undesired operation.
FCC Warning Statement:
This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:
• Reorient or relocate the receiving antenna.
• Increase the separation between the equipment and receiver.
• Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
• Consult the dealer or an experienced radio/TV technician for help.
NOTE: This device complies with part 18 of the FCC Rules.
Information to the user.
1. the device has potential interferencesuse the interference is very small and meets therequirements of the FCC rule
2. Equipment system maintenance is simple, please refer to the manual
3. The user can take simple measures to correct the interference. Such as staying away from interference source, turning off interference source, etc.
RF exposure compliance statement:
The equipment complies with FCC Radiation exposure limit set forth for anuncontrolled environment. This equipment should be installed and operated with minimum distance 20cm between the radiator and your body.

GARANTIJA

Uz produktu ir noteikts vienreizējs garantijas laiks, kas sākas ar pirkuma datumu. Lai iegūtu papildu informāciju par garantiju, lūdzu, apmeklējiet vietni: https://www.energizerpowerbanks.com

Ņemiet vērā, ka akumulatora darbības laiks ir ierobežots un ir norādīts garantijas laikā neatkarīgi no tā, kur atrodaties vai kur iegādājaties akumulatoru vai ierīci.

Pakningsinnhold

1. QM10002PQ
2. Brukermanual
3. Ladekabel

Hvordan bruke

Plasser den trådløse laderen på baksiden av smarttelefonen din, den vil feste seg magnetisk.
Trykk på av/på-knappen for å aktivere lading på enheten(e) i dinjen.

Hvordan velge riktig sak
Bruk en magnetisk kompatibel magnetisk sak for optimale resultater.
Lademodus
Aktiverer og aktiverer lading.
Fatt lys indikerer lykkelet.

Det grønne lyset indikerer at trådløs lading er aktivert.
For rask lading, vennligst lad kun ett enhet om gangen.

Den utfeldbare stativet kan brukes som et stativ under trådløs lading.
For rask lading, vennligst lad kun en enhet om gangen.

For rask lading (via kabel): koble kun én enhet til powerbanken for å aktivere rask lading. Ikke trykk på strømknappen
For trådløs lading: trykk på strømknappen en gang for å aktivere trådløs lading, rask lading (via kabel) vil bytte til normal lademodus. Etter 1 minutt uten aktivitet vil trådløs lading slås av, deretter vil rask lading fortsette.

Hvordan lade

Magnetisk trådløs lader 15W
USB-C PD INN/UT
22.5W USB-A rask lading
LED-indikatorlys
Utfeldbar stativ
Koble til USB-C-enden til inngangsporten for å lade
Koble ladekabelen til en universell USB AC-adapter.
Strømkontrollknapp

Specificații :
Nume model: QM10002PQ
Tip celulă: Polimer de litiu
Capacitate baterie: 10000mAh/38.5Wh (Maxim)
Intrare nominală: USB-C PD 5V/3A, 9V/2A
Ieșire nominală 1: USB-A 4.5V/5A, 5V/4.5A, 5V/3A, 9V/2A, 12V/1.5A
Ieșire nominală 2: USB-C PD 5V/3A, 9V/2.22A, 12V/1.5A
Ieșire fără fir: 5W/7.5W/10W/15W
Ieșire totală: 22.5W (Maxim)
Dimensiuni: 112.4(L) x 68.5(W) x 22(H) mm
Greutate: 238g ± 10g

Conținutul pachetului

1 QM10002PQ
2 Manual de utilizare
3 Cablu de încărcare

Cum să folosești

Așezați încărcătorul wireless pe spatele smartphone-ului, se va atașa magnetic.
Aplicați butonul de pornire pentru a activa încărcarea dispozitivului(dispozitivul) dumneavoastră.

Cum să alegeți husa potrivită
Încărcător cu MagSafe și husă magnetică compatibilă pentru rezultate optime.

Mod de încărcare
Lumina care clipește indică încărcarea.
Lumina constantă indică încărcare completă.

Lumina verde indică faptul că încărcarea wireless este activată. Pentru a încărca mai rapid, vă rugăm să încărcați doar un dispozitiv la un moment dat.

Suportul rabatabil poate fi folosit ca suport în timpul încărcării wireless.
Pentru încărcare rapidă, vă rugăm să încărcați doar o singură dispozitiv la un moment dat.

Pentru încărcare rapidă (prin cablu): conectați doar un dispozitiv la power bank pentru a activa încărcarea rapidă, nu apăsați butonul de alimentare.
Pentru încărcare wireless: apăsați o dată butonul de alimentare pentru a activa încărcarea wireless, încărcarea rapidă (prin cablu) va trece în modul normal de încărcare. După 1 minut de inactivitate, încărcarea wireless se va opri, iar încărcarea rapidă va reveni.

Cum să reîncărcați

Încărcător magnetic wireless 15W
Conectați capătul USB-C la portul de intrare pentru a reîncărca
USB-C PD intrare/ieșire
Încărcare rapidă USB-A 22.5W
Indicatoare LED
Conectați cablul de încărcare la un adaptor USB AC universal.
Buton de verificare a alimentării
Stand pliabil

3 Зарядный кабель

Как использовать

Положите беспроводное зарядное устройство на заднюю сторону вашего смартфона, оно прикрепится.
Нажмите кнопку питания, чтобы активировать зарядку вашего устройства(ов).

Как выбрать правильный чехол
Пожалуйста, используйте совместимый магнитный чехол для оптимальных результатов.

Режим зарядки
Мигающий свет указывает на зарядку.
Постоянный свет указывает на полную зарядку.

Зеленый свет индикатора активации беспроводной зарядки. Для быстрой зарядки, пожалуйста, заряжайте только одно устройство за раз.

Складная подставка может использоваться в качестве подставки во время беспроводной зарядки.
Для быстрой зарядки, пожалуйста, заряжайте только одно устройство за раз.

Для быстрой зарядки (через кабель): подключите к power bank только одно устройство, чтобы активировать быструю зарядку, не нажимайте кнопку питания.
Для беспроводной зарядки: нажмите один раз кнопку питания для активации беспроводной зарядки, быстрая зарядка (через кабель) перейдет в обычный режим зарядки. После 1 минуты бездействия беспроводная зарядка отключится, затем быстрая зарядка возобновится.

Как заряжать

Магнитный беспроводной зарядник 15W
Подключите конец USB-C к входному порту для зарядки
USB-C PD Вход/Выход
Быстрая зарядка USB-A 22.5W
Светодиодные индикаторы
Складная подставка
Кнопка проверки питания
Подключите кабель питания к универсальному адаптеру USB AC адаптеру.

Technické údaje :
Modelové označenie: QM10002PQ
Typ článku: Lithium Polymer
Kapacita batérie: 10000mAh/38.5Wh (max.)
Hodnotený vstup: USB-C PD 5V/3A, 9V/2A
Hodnotený výstup 1: USB-A 4.5V/5A, 5V/4.5A, 5V/3A, 9V/2A, 12V/1.5A
Hodnotený výstup 2: USB-C PD 5V/3A, 9V/2.22A, 12V/1.5A
Bezdrôtový výstup: 5W/7.5W/10W/15W
Celkový výstup: 22.5W (max.)
Rozmery: 112.4(D) x 68.5(Š) x 22(V) mm
Hmotnosť: 238g ± 10g

Obsah balenia

1 QM10002PQ
2 Používateľská príručka
3 Nabíjacie káble

Ako používať

Umiestnite bezdrôtovú nabíjačku na zadnú stranu vášho smartfónu, bude sa magneticky priľpievňovať.
Stlačte tlačidlo zapnutia pre aktiváciu nabíjania vašich zariadení.

Ako vybrať správny prípad
Použite, použite kompatibilný magnetický prípad pre optimálne výsledky.

Režim nabíjania
Blikajúce svetlo znamená nabíjanie.
Stále svetlo znamená úplné nabitie.

Zelené svetlo signalizuje aktivovanie bezdrôtové nabíjanie. Pre rýchle nabíjanie, prosím, nabíjajte iba jedno zariadenie naraz.

Skladný stojan môže byť použitý ako stojan počas bezdrôtovej nabíjania.
Pre rýchle nabíjanie, prosím, nabíjajte len jedno zariadenie naraz.

Pre rýchle nabíjanie (cez kábel): pripojte len jedno zariadenie k power bank, aby sa aktivovalo rýchle nabíjanie, nepridžte na tlačidlo napájania.
Pre bezdrôtové nabíjanie: stlačte raz tlačidlo napájania na aktiváciu bezdrôtového nabíjania, rýchle nabíjanie (cez kábel) prejde do normálneho režimu nabíjania. Po 1 minúte nečinnosti sa bezdrôtov nabíjanie vypne, rýchle nabíjanie sa potom obnoví.

Ako dobíjať

Magnetický bezdrôtový nabíjač 15W
Pripojte koniec USB-C k vstupnému portu na dobíjanie
USB-C PD VSTUP/VÝSTUP
22.5W USB-A rýchle nabíjanie
LED indikačné svetlá
Skladný stojan
Tlačidlo kontrolu napájania
Pripojte nabíjací kábel k univerzálnemu adaptéru USB AC.

Specifikacije :
Model: QM10002PQ
Tip celice: LiIo-polimer
Kapaciteta baterije: 10000mAh/38.5Wh (maks.)
Nabitji vhod: USB-C PD 5V/3A, 9V/2A
Nabitji izhod 1: USB-A 4.5V/5A, 5V/4.5A, 5V/3A, 9V/2A, 12V/1.5A
Nabitji izhod 2: USB-C PD 5V/3A, 9V/2.22A, 12V/1.5A
Brezžični izhod: 5W/7.5W/10W/15W
Skupni izhod: 22.5W (maks.)
Dimenzije: 112.4(D) x 68.5(Š) x 22(V) mm
Teža: 238g ± 10g

Vsebina paketa

1 QM10002PQ
2 Uporabniški priročnik
3 Polnilni kabel

Kako uporabljati

Postavite brezžični polnilec na hrbtno stran svojega pametnega telefona, se bo magnetno pritrdil.
Pritisnite gumb za vklop, da aktivirate polnjenje vaših naprav.

Kako izbrati pravi primer
Uporabite, uporabite združljivo magnetno ohišje za optimalne rezultate.

Način polnjenja
Utripajoča luč kaže, da se polni.
Stalna luč kaže, da je baterija popolnoma napolnjena.

Zeleno luč na označuje, da je brezžično polnjenje aktivirano. Za hitro polnjenje, prosimo, polnite samo eno napravo naenkrat.

Zložljiv stojalo lahko uporabite kot stojalo med brezžičnim polnjenjem.
Za hitro polnjenje napolnite samo eno napravo hkrati.

Za hitro polnjenje (prek kabla): povežite samo eno napravo z baterijo, da aktivirate hitro polnjenje, ne pritiskajte na gumb za vklop.
Za brezžično polnjenje: enkrat pritisnite gumb za vklop, da aktivirate brezžično polnjenje, hitro polnjenje (prek kabla) se bo preklopilo na normalni način polnjenja. Po 1 minuti neaktivnosti se brezžično polnjenje izklopi, nato se hitro polnjenje nadaljuje.

Kako napolniti

Magnetni brezžični polnilec 15W
Povežite konec USB-C v vhodni priključek za polnjenje
USB-C PD
IZDELAVA/IZDELAVA
22.5W USB-A hitro polnjenje
LED kazalne luči
Zložljiv stojalo
Gumb za preverjanje napajanja
Povežite polnilni kabel s univerzalnim USB AC adapterjem.

SQ

Specifikimet :
Emri i modelit: QM10002PQ
Lloji i qelizës: Polimer Li
Kapaciteti i baterisë: 10000mAh/38.5Wh (Maks.)
Hyrja e sistemit: USB-C PD 5V/3A, 9V/2A
Dalja e sistemit 1: USB-A 4.5V/5A, 5V/4.5A, 5V/3A, 9V/2A, 12V/1.5A
Dalja e sistemit 2: USB-C PD 5V/3A, 9V/2.22A, 12V/1.5A
Dalja pa tel: 5W/7.5W/10W/15W
Dalja totale: 22.5W (Maks.)
Dimensionet: 112.4(G) x 68.5(M) x 22(L) mm
Pesha: 238g ± 10g

Përmbajtja e paketimit

1 QM10002PQ
2 Manuali i përdorimit
3 Kabllo e ngarkimit

Si të përdoret

Vendosni ngarkuesin pa tel në sipërfaqe të sheshtë dhe lëreni të ftohet kur të përdorni. Sigurohuni që asgjë metalike të mos jetë midis pajisjes dhe ngarkuesit pa tel.

Drita jeshile tregon se është aktivizuar ngarkimi pa tel. Për ngarkim të shpejtë, ju lutemi ngarkoni vetëm një pajisje në një kohë.

Si të zgjidhni rastin e duhur
Ju lutemi zgjidhni një rast magnetik të përshtatshëm për modelin të telefonave.
Shihni udhëzimet për përdorim.

Stendi i hapur mund të përdoret si mbajtëse gjatë ngarkimit pa tel. Për ngarkim të shpejtë, ju lutemi ngarkoni vetëm një pajisje njëherësh.

Për ngarkim të shpejtë (ekrimes kaltër): lidhni veshin një pajisje me baterinë për të aktivizuar ngarkimin e shpejtë, mos shtypni butonin e fuqisë.
Për ngarkim pa tel: shtypni një herë butonin e fuqisë për të aktivizuar ngarkimin pa tel, ngarkimi i shpejtë (ekrimes kaltër) do të kalohet në mënyrën normale të ngarkimit. Pas 1 minutës pa aktivitet, ngarkimi pa tel do të fikët, pastaj ngarkimi i shpejtë do të ndizet.

Si të ringjallni

Ngarkues pa tel i magnetizuar 15W
USB-C PD NE/DHE
Drita LED indikatore
Stend i hapur
Ngarkim i shpejtë USB-A 22.5W
Butoni i kontrollës së fuqisë
Lidhni kabllin e ngarkimit me një adapter USB AC ambient.

Warning:

Changes or modifications to this unit not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

NOTE:
This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions:
(1) This device may not cause harmful interference, and
(2) this device must accept any interference received, including interference that may cause undesired operation.
FCC Warning Statement:
This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:
• Reorient or relocate the receiving antenna.
• Increase the separation between the equipment and receiver.
• Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
• Consult the dealer or an experienced radio/TV technician for help.
NOTE: This device complies with part 18 of the FCC Rules.
Information to the user.
1. The device has potential interference but the interference is very small and meets the requirements of the FCC rule
2. Equipment system maintenance is simple, please refer to the manual
3. The user can take simple measures to correct the interference. Such as staying away from interference source, turning off interference source, etc.
IC exposure compliance statement:
The equipment complies with FC Radiation exposure limit set forth for uncontrolled environment. This equipment should be installed and operated with minimum distance 20cm between the radiator and your body.

Monazhimi PowerSafe
Garantim kundër qarkullit dëm ngarkerash së tepërt për baterinë tuaj portative dhe pajisjen.

Преузми упутство

SR

Спецификације :
Назив модела: QM10002PQ
Тип ћелије: литијум полимер
Капацитет батерије: 10000 мАх/38.5 Вх (макс.)
Називни улаз: УСБ-Ц ПД 5В/3А, 9В/2А
Називни излаз 1: УСБ-А 4.5В/5А, 5В/4.5А, 5В/3А, 9В/2А, 12В/1.5А
Називни излаз 2: УСБ-Ц ПД 5В/3А, 9В/2.22А, 12В/1.5А
Бежичне котве: 5В/7.5В/10В/15В
Укупна снага: 22.5 В (макс.)
Димензије: 112.4(Д) к68.5(Ш) к22(В) мм
Тежина: 238г±10г

Садржај паковања

1 QM10002PQ
2 Кориснички приручник
3 Кабл за напајање

Како користити

Поставите бежични пуњач на задњу страну свог смартфона, он ће се прикачити магнетно.
Прилагодите држач за успостављање да бисте активирали пуњење на вашем уређају(ама).

Како изабрати правилне кошеве
Молимо изаберите одговарајуће магнетне кошеве за одговарајући уређај.
Погледајте упутства.

Режим пуњења
Мењајте светло сигнала за пуњење.
Комплетно светло сигнала на потпору напуњено.

Зелено светло означава да је бежично пуњење активирано. За брзо пуњење, пуните само један уређај истовремено.

Стојак за отпадавање може се користити као стабилан бежичног пуњења.
За брзо пуњење, молимо пуните само један уређај одједном.

За брзо пуњење (плава кабла): повежите само један уређај са једног бежичног активирајте брзо пуњење, не препоручује се пуњење за истовремено.
За бежично пуњење: притисните дугме за укључивање једном да бисте активирали бежично пуњење. Брзо пуњење (плава кабла) ће прећи на режим нормалног пуњења. Након 1 минуте неактивности, бежично пуњење ће се искључити, а затим ће се поново активирати брзо пуњење.

Како напунити

Магнетни бежични пуњач 15W
USB-C PD VIA/3A/9V/2A/3
Светлосни индикатори
22.5W USB-A брзо пуњење
Стаклак за отпадавање
Повежите кабл за пуњење на универзални USB AC адаптер.
Дугме за проверу напајања
Повежите УСБ-Ц кабл до уланког порта за пуњење

Specifikationer :
Modellnamn: QM10002PQ
Cellityp: Litium Polymer
Batterikapacitet: 10000mAh/38.5Wh (Max.)
Betygsatt ingång: USB-C PD 5V/3A, 9V/2A
Betygsatt utgång 1: USB-A 4.5V/5A, 5V/4.5A, 5V/3A, 9V/2A, 12V/1.5A
Betygsatt utgång 2: USB-C PD 5V/3A, 9V/2.22A, 12V/1.5A
Trådlös utgång: 5W/7.5W/10W/15W
Total utgång: 22.5W (Max.)
Mått: 112.4(L) x 68.5(B) x 22(H) mm
Vikt: 238g±10g

Innehåll i förpackningen

1 QM10002PQ
2 Användarmanual
3 Laddningskabel

Hur man använder

Placera den trådlösa laddaren på baksidan av din smartphone, den kommer att fästa magnetiskt.
Tryck på strömbrytaren för att aktivera laddningen på din/dina enheter.

Hur man väljer rätt fall
Ändrad gånvärdsanpassbart magnetiskt skal för optimal resultat.
Läsmärkt för laddning
Bekräfta att indikerar att laddning pågår.
Fast fast indikerar att enheten är fullladdad.

Det gröna ljuset indikerar att trådlös laddning är aktiverad.
För snabb laddning, vänligen ladda endast en enhet åt gången.

Den utfällbara stången kan användas som ett stöd under trådlös laddning.
För snabb laddning, ladda endast en enhet åt gången.

För snabb laddning (via kabel): anslut endast en enhet till powerbanken för att aktivera snabbladdning, tryck inte på strömbrytaren.
För trådlös laddning: tryck en gång på strömbrytaren för att aktivera trådlös laddning, snabbladdning (via kabel) kommer att växla till normal laddningsläge. Efter 1 minuts inaktivitet kommer trådlös laddning att stängas av, och snabbladdning återupptas sedan.

Hur man laddar

Magnetisk trådlös laddare 15W
USB-C PD IN/UT
LED-indikatorlampor
22.5W USB-A snabbladdning
Uppfällbar ställning
Anslut USB-C ändem till ingångsporten för att ladda
Strömkontrollknapp
Anslut laddningskabeln till en universell USB AC-adapter.

Характеристики :
Назва модуля: QM10002PQ
Тип акумулятора: літій-полімерний
Ємність акумулятора: 10000mAh/38.5Wh (Макс.)
Сценарій вводу: USB-C PD 5V/3A, 9V/2A
Сценарій вводу 1: USB-A 4.5V/5A, 5V/4.5A, 5V/3A, 9V/2A, 12V/1.5A
Сценарій вводу 2: USB-C PD 5V/3A, 9V/2.22A, 12V/1.5A
Бездротовий ввід: 5W/7.5W/10W/15W
Загальний ввід: 22.5W (Макс.)
Габарити: 112.4(Д) x 68.5(Ш) x 22(В) мм
Вага: 238г ± 10г

Вміст упаковки

1 QM10002PQ
2 Інструкція користувача
3 Кабель заряду

Як використовувати

Поставте бездротовий зарядний пристрій на задню частину вашого смартфона, він магнітно прикріпиться. Налаштуйте кнопку живлення, щоб активувати зарядку на вашому пристрої(ях).

Як вибрати правильний чохол
Будь ласка, виберіть відповідний магнітний чохол для оптимальних результатів.

Режим зарядження
Миготіння світло вказує на зарядження.
Постійне світло вказує на повне зарядження.

Зелене світло вказує на активування бездротове зарядження. Для швидкого зарядження, будь ласка, заряджайте лише один пристрій одночасно.

Розкладний стенд може використовуватися як підставка під час бездротової зарядки.
Для швидкої зарядки, будь ласка, заряджайте лише один пристрій одночасно.

Для швидкої зарядки (через кабель): підключіть лише один пристрій до банку потужності, щоб активувати швидку зарядку, не натискайте кнопку живлення.
Для бездротової зарядки: натисніть один раз кнопку живлення, щоб активувати бездротову зарядку, швидка зарядка (через кабель) перейде в звичайний режим зарядки. Після 1 хвилини бездротового зарядка вимкнеться, а швидка зарядка знову продовжиться.

Як перезаряджати

Магнітний бездротовий зарядний 15W
USB-C PD Вхід/Вихід
Світлодіодні індикатори
Швидке зарядження USB-A 22.5W
Висувна підставка
Підключіть кінець USB-C до вихідного порту для зарядження
Кнопка перемикач живлення
Підключіть зарядний кабель до універсального USB AC адаптера.
