Device Layout

- ① Tablet case
- ② S pen Holder
- ③ Keyboard shortcuts
- ④ Touchpad
- ⑤ Bluetooth & keyboard status light
- ⑥ USB-C Charging Port
- ⑦ On/Off
- ⑧ Stand

Attaching the Keyboard

1. Install the tablet in the tablet case according to the position of the camera.
 2. After installation, check if the tablet camera can be exposed.
- Use the product on a flat surface

Adjusting the Tablet Angle

You can adjust the tablet angle with the product's stand. Flip out and adjust the stand until you find the desired angle.

- Do not excessively tilt or apply too much pressure to the stand. Doing so may cause damage or deform it
- Do not apply pressure to the tablet's screen while the angle of the stand is adjusted low. Doing so may cause the stand to fall over

Turn on and off

Switch to the left, keyboard turned on
On Off
Switch to the right, keyboard off
On Off

Connect to the Tablet

1. After turning on the keyboard, press the [Fn] and [C] keys for 2 seconds to enter Bluetooth pairing mode. (Bluetooth indicator light flashing, indicates the keyboard is in Bluetooth pairing mode)
 2. On the tablet, ensure that Bluetooth is enabled, then select Settings > Connect > Bluetooth, and select "BT Keyboard (TP)" from the available devices. The tablet will ask if you want to pair, then select pair.
- Bluetooth pairing only requires first use. Once paired, simply turn on the keyboard and will be connected with the tablet automatically.

Precautions for Using The Product

- Images may differ in appearance from the actual product. Content is subject to change without prior notice.
- Do not expose the product to humidity, solvents or high temperatures. Doing so may stain, wrinkle, discolour or distort it.
- If there is debris on the product's attachment surface, wipe the surface clean before using the product.
- Avoid placing the product in hot or humid environments. If the product is exposed to direct sunlight, its colour or form may change.
- Be careful not to scratch the product with sharp objects such as nails.
- When using this product, some customers may experience allergic reactions, such as itching, eczema, or swelling. If you experience any of these symptoms, stop using the product and consult a physician.
- While using the product, be cautious to prevent scratches or damage from debris.
- Your product contains magnets. Keep it away from credit cards, implanted medical devices, and other devices that may be affected by magnets. In the case of medical devices, keep your product more than 15 cm apart. Stop using your product if you suspect any interference with your medical device and consult your physician or your medical device manufacturer.

Troubleshooting

1. Keyboard Not Working
 - Press any key to wake the keyboard from sleep mode.
 - Turn the keyboard off, then turn it back on.
2. Unable to Connect via Bluetooth
 - First, make sure the tablet's Bluetooth is turned on.
 - If the keyboard still doesn't work, follow the steps below:
 - Unpair the existing device and re-pair it.

How to unpair:
Go to your tablet's Settings > Connections > Bluetooth, find BT Keyboard (Touch Pad) under paired devices, and tap the on the right.
The tablet will ask for confirmation — tap [Unpair] at the bottom right.

How to re-pair:
Please refer to the instructions for connecting the keyboard to the tablet.
3. Bluetooth Connection is Unstable
If the battery is low, the Bluetooth connection may fail. Please charge the Bluetooth keyboard before use.
