EN - SAFETY INSTRUCTIONS

Thank you for purchasing this Philips Hue product, we highly appreciate your choice for the Philips brand and wish you lots of pleasure using your product. Please go to www.philips-hue.com to learn more about HUE and how to use it. Using Philips Hue requires acceptance of the Philips Hue Terms of Use as available on www.philips-hue.com (go to "Product Terms of use" in the footer). "Hue Personal Wireless Lighting" is a trademark owned by Signify Holding B.V. This manual B contains definitions of all potentially applicable parameters & specifications with icons, as per International norms and safety standards. However not all of them may be applicable for the product you purchased - please refer to the icons in the Manual A, for the ones which are particularly applicable for this product. **SIMPLIFIED EU DECLARATION OF CONFORMITY** - Hereby, Signify declares that the radio equipment type HUE personal wireless lighting system is in compliance with Directive 2014/53/EU. The full text of the EU declaration of conformity is available at the following internet address: www.philips-hue.com/DoC. The Hue Bridge contains open source software. The related license texts and the distribution procedure can be found with a web browser by opening the web page of the Hue Bridge. **Wireless specification:** Wireless RF mode frequency band: 2400-2483.5 MHz · Operating channels Zigbee: channels 11 – 26 · Operating channels Bluetooth: channels 0 – 39 · Maximum transmitted power <20 dBm. The manufacturer advises the correct use of lighting fittings! Therefore always follow these instructions to ensure correct and safe installation and functioning of the lighting, and keep them for future reference. Always consult a professional in advance, for choosing the right fasteners for a secure mounting of the product. Take into account the weight of the product and the material of the mounting surface. If in doubt, consult a qualified or licensed electrician or contact your retail outlet. Ensure the product is always installed according to relevant regulations. Certain regulations indicate that electrical products must be installed only by a licensed electrician (e.g. Part P for the UK, AS/NZS3000 IN for AUSTRALIA / NEW ZEALAND). Always switch off the power prior to installation, maintenance or repair activities. Observe the correct colour of the wiring before installation: blue (N), brown (L) and if protection class I, yellow/green (earth). If an electrostatic discharge occurs, the product may malfunction and require the user to reset the product. Mount wall lights out of children's reach. If the product is mounted on a metallic surface, this surface must be bonded to the equipotential bonding conductor of the installation. Always tighten the terminal screws firmly. It is highly recommended to regularly check and re-tighten the terminal screws over time. Keep packaging materials out of children's reach (e.g. plastic bags...). Maintain interior lighting with a dry cloth duster, do not use abrasives or solvents. Avoid liquids on all electrical parts. Immediately replace a cracked or broken translucent cover and only use manufacturer approved parts. **Safety instructions when using batteries/rechargeable batteries:** Charge "rechargeable" batteries every 3 months to ensure lifetime of the product. Batteries should be installed by an adult. Different types of batteries and new and used batteries must not be mixed. Batteries are to be inserted with the correct polarity. The supply terminals must not be short-circuited. Exhausted batteries must be removed from the product. Remove batteries when the product is not in use for some time. Remove rechargeable batteries from the product before being charged. Charge rechargeable batteries only under adult supervision. Non-rechargeable batteries must not be charged. Risk of explosion if battery is replaced by an incorrect type. **Warnings and cautions for products using coin/button batteries:** Keep new and used batteries away from children. If the coin/button cell battery is swallowed, it can cause severe internal burns in just two hours and can lead to death. If you think batteries might have been swallowed or placed inside any part of the body, seek immediate medical attention. If the battery compartment does not close securely, stop using the product and keep it away from children. **CAUTION!** Do not ingest battery – Chemical burn hazard. **Safety instructions for products with separate power supply unit:** Only use supplied power supply unit. Product can be damaged when using a power supply unit of another manufacturer. Do not open the power supply unit for your own safety.

Disposal of the product. Your product is designed and manufactured with high quality materials and components, which can be recycled and reused. When this crossed-out wheeled bin symbol is attached to a product it means the product is covered by the **European Directive 2012/19/EU.**
