# Aries 20 Series Headset

## Rich HD Voice, Crystal Clear Conversation

Built with premium neodymium speakers with a frequency range from 100 Hz to 6.8k Hz, the Aries 20 Series can deliver richer intonation for your HD conversations.

The microphone supports noise cancellation, minimizes background distractions and delivers greater call clarity.

Moreover, the Aries 20 features a 330° extendable boom to ensure precise positioning and optimal voice pickup.

## Customer-Centric, Superior Softness

The Aries 20 Series is built with premium Nylon composite materials, featuring superior softness, light weight, and exceptional ease for all-day use.

Additionally, the design of the series is distinctive with large soft foam ear cushions to gently fit users' ears, and ultimately help them stay engaged and fresh.

Customer-centric, the Aries 20 Series has integrated hearing protection against sounds above 118 dBA to safeguard users' health.

## Great Flexibility, Best-in Class Quality

The Aries 20 Series adopts use of steel on the key parts of the microphone, a soft and durable cord, and reinforced lightweight headband for both strength and durability.

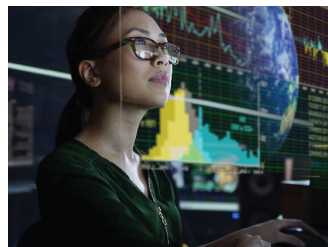

With 4 models lined-up, the Aries 20 Series is well suited for varied scenarios. The headsets can easily integrate with general communication software, and are optimized for Skype for Business from Microsoft and ALE IP phones for more interactive user experiences.
