

Privacy Policy

Preamble

With the following privacy policy we would like to inform you which types of your personal data (hereinafter also abbreviated as "data") we process for which purposes and in which scope. The privacy statement applies to all processing of personal data carried out by us, both in the context of providing our services and in particular on our websites, in mobile applications and within external online presences, such as our social media profiles (hereinafter collectively referred to as "online services").

The terms used are not gender-specific.

Overview of processing operations

The following table summarises the types of data processed, the purposes for which they are processed and the concerned data subjects.

Categories of Processed Data

- Inventory data.
- Employee Data.
- Payment Data.
- Contact data.
- Content data.
- Contract data.
- Usage data.
- Meta, communication and process data.
- Job applicant details.
- Images and/ or video recordings.
- Audio recordings.
- Log data.
- Creditworthiness Data.

Categories of Data Subjects

- Service recipients and clients.
- Employees.
- Prospective customers.

- Communication partner.
- Users.
- Job applicants.
- Business and contractual partners.
- Participants.
- Persons depicted.
- Third parties.

Purposes of Processing

- Provision of contractual services and fulfillment of contractual obligations.
- Communication.
- Security measures.
- Direct marketing.
- Web Analytics.
- Targeting.
- Office and organisational procedures.
- Remarketing.
- Conversion tracking.
- Clicktracking.
- Affiliate Tracking.
- A/B Tests.
- Organisational and Administrative Procedures.
- Job Application Process.
- Feedback.
- Heatmaps.
- Polls and Questionnaires.
- Marketing.
- Profiles with user-related information.
- Provision of our online services and usability.
- Assessment of creditworthiness.

- Establishment and execution of employment relationships.
- Information technology infrastructure.
- Public relations and informational purposes.
- Public relations.
- Sales promotion.
- Business processes and management procedures.
- Artificial Intelligence (AI).

Automated Individual Decision-Making

- Credit report.

Relevant legal bases

Relevant legal bases according to the GDPR: In the following, you will find an overview of the legal basis of the GDPR on which we base the processing of personal data. Please note that in addition to the provisions of the GDPR, national data protection provisions of your or our country of residence or domicile may apply. If, in addition, more specific legal bases are applicable in individual cases, we will inform you of these in the data protection declaration.

- **Consent (Article 6 (1) (a) GDPR)** - The data subject has given consent to the processing of his or her personal data for one or more specific purposes.
- **Performance of a contract and prior requests (Article 6 (1) (b) GDPR)** - Performance of a contract to which the data subject is party or in order to take steps at the request of the data subject prior to entering into a contract.
- **Compliance with a legal obligation (Article 6 (1) (c) GDPR)** - Processing is necessary for compliance with a legal obligation to which the controller is subject.
- **Legitimate Interests (Article 6 (1) (f) GDPR)** - the processing is necessary for the protection of the legitimate interests of the controller or a third party, provided that the interests, fundamental rights, and freedoms of the data subject, which require the protection of personal data, do not prevail.
- **Job application process as a pre-contractual or contractual relationship (Article 6 (1) (b) GDPR)** - If special categories of personal data within the meaning of Article 9 (1) GDPR (e.g. health data, such as severely handicapped status or ethnic origin) are requested from applicants within the framework of the application procedure, so that the responsible

person or the person concerned can carry out the obligations and exercising specific rights of the controller or of the data subject in the field of employment and social security and social protection law, their processing shall be carried out in accordance with Article 9 (2)(b) GDPR , in the case of the protection of vital interests of applicants or other persons on the basis of Article 9 (2)(c) GDPR or for the purposes of preventive health care or occupational medicine, for the assessment of the employee's ability to work, for medical diagnostics, care or treatment in the health or social sector or for the administration of systems and services in the health or social sector in accordance with Article 9 (2)(d) GDPR. In the case of a communication of special categories of data based on voluntary consent, their processing is carried out on the basis of Article 9 (2)(a) GDPR.

- **Healthcare, occupational and social security processing of special categories of personal data (Article 9 (2)(h) GDPR)** - processing is necessary for the purposes of preventive or occupational medicine, for the assessment of the working capacity of the employee, medical diagnosis, the provision of health or social care or treatment or the management of health or social care systems and services on the basis of Union or Member State law or pursuant to contract with a health professional.

National data protection regulations in Germany: In addition to the data protection regulations of the GDPR, national regulations apply to data protection in Germany. This includes in particular the Law on Protection against Misuse of Personal Data in Data Processing (Federal Data Protection Act - BDSG). In particular, the BDSG contains special provisions on the right to access, the right to erase, the right to object, the processing of special categories of personal data, processing for other purposes and transmission as well as automated individual decision-making, including profiling. Furthermore, data protection laws of the individual federal states may apply.

Relevant legal basis according to the Swiss Data Protection Act: If you are located in Switzerland, we process your data based on the Federal Act on Data Protection (referred to as "Swiss DPA"). Unlike the GDPR, for instance, the Swiss DPA does not generally require that a legal basis for processing personal data be stated and that the processing of personal data is conducted in good faith, lawfully and proportionately (Art. 6 para. 1 and 2 of the Swiss DPA). Furthermore, we only collect personal data for a specific purpose recognizable to the data subject and process it only in a manner compatible with this purpose (Art. 6 para. 3 of the Swiss DPA).

Reference to the applicability of the GDPR and the Swiss DPA: These privacy policy serves both to provide information pursuant to the Swiss Federal Act on Data Protection (FADP) and the General Data Protection Regulation (GDPR). For this reason, we ask you to note that due to the broader spatial application and comprehensibility, the terms used in the GDPR are applied. In particular, instead of

the terms used in the Swiss FADP such as "processing" of "personal data", "predominant interest", and "particularly sensitive personal data", the terms used in the GDPR, namely "processing" of "personal data", as well as "legitimate interest" and "special categories of data" are used. However, the legal meaning of these terms will continue to be determined according to the Swiss FADP within its scope of application.

Transmission of Personal Data

In the course of processing personal data, it may happen that this data is transmitted to or disclosed to other entities, companies, legally independent organizational units, or individuals. Recipients of this data may include service providers tasked with IT duties or providers of services and content that are integrated into a website. In such cases, we observe the legal requirements and particularly conclude relevant contracts or agreements that serve to protect your data with the recipients of your data.

International data transfers

Data Processing in Third Countries: If we process data in a third country (i.e., outside the European Union (EU) or the European Economic Area (EEA)), or if the processing is done within the context of using third-party services or the disclosure or transfer of data to other individuals, entities, or companies, this is only done in accordance with legal requirements. If the data protection level in the third country has been recognized by an adequacy decision (Article 45 GDPR), this serves as the basis for data transfer. Otherwise, data transfers only occur if the data protection level is otherwise ensured, especially through standard contractual clauses (Article 46 (2)(c) GDPR), explicit consent, or in cases of contractual or legally required transfers (Article 49 (1) GDPR). Furthermore, we provide you with the basis of third-country transfers from individual third-country providers, with adequacy decisions primarily serving as the foundation. "Information regarding third-country transfers and existing adequacy decisions can be obtained from the information provided by the EU Commission:

https://commission.europa.eu/law/law-topic/data-protection/international-dimension-data-protection_en. Within the context of the so-called "Data Privacy Framework" (DPF), the EU Commission has also recognized the data protection level for certain companies from the USA as secure within the adequacy decision of 10th July 2023. The list of certified companies as well as additional information about the DPF can be found on the website of the US Department of Commerce at <https://www.dataprivacyframework.gov/s/>. We will inform you which of our service providers are certified under the Data Privacy Framework as part of our data protection notices.

Disclosure of Personal Data Abroad: In accordance with the Swiss Data Protection Act (Swiss DPA), we only disclose personal data abroad when an appropriate level of protection for the affected persons is ensured (Art. 16 Swiss DPA). If the Federal Council does not determine that there is an adequate level of protection (list of states:

<https://www.bj.admin.ch/bj/de/home/staat/datenschutz/internationales/anererkennung-staaten.html>), we implement alternative security measures. These measures may

include international agreements, specific guarantees, data protection clauses in contracts, standard data protection clauses approved by the Federal Data Protection and Information Commissioner (FDPIC), or internal company data protection regulations previously recognised by the FDPIC or a competent data protection authority of another country. Under Art. 16 of the Swiss DSG, exceptions can be made for the disclosure of data abroad if certain conditions are met, including the consent of the affected person, contract execution, public interest, protection of life or physical integrity, publicly made data or data from a legally provided register. Such disclosures always comply with the legal requirements. As part of the so-called "Data Privacy Framework" (DPF), the Switzerland has recognized the data protection level for certain companies from the USA as adequate under the adequacy decision dated June 7, 2024. You can find the list of certified companies and additional information about the DPF on the website of the U.S. Department of Commerce at <https://www.dataprivacyframework.gov/> (in English). We inform you in our privacy notice about which service providers we use are certified under the Data Privacy Framework.

General Information on Data Retention and Deletion

We delete personal data that we process in accordance with legal regulations as soon as the underlying consents are revoked or no further legal bases for processing exist. This applies to cases where the original purpose of processing is no longer applicable or the data is no longer needed. Exceptions to this rule exist if statutory obligations or special interests require a longer retention or archiving of the data.

In particular, data that must be retained for commercial or tax law reasons, or whose storage is necessary for legal prosecution or protection of the rights of other natural or legal persons, must be archived accordingly.

Our privacy notices contain additional information on the retention and deletion of data specifically applicable to certain processing processes.

In cases where multiple retention periods or deletion deadlines for a date are specified, the longest period always prevails.

If a period does not expressly start on a specific date and lasts at least one year, it automatically begins at the end of the calendar year in which the event triggering the period occurred. In the case of ongoing contractual relationships in the context of which data is stored, the event triggering the deadline is the time at which the termination or other termination of the legal relationship takes effect.

Data that is no longer stored for its originally intended purpose but due to legal requirements or other reasons are processed exclusively for the reasons justifying their retention.

Rights of Data Subjects

Business services

We process data of our contractual and business partners, e.g. customers and interested parties (collectively referred to as "contractual partners") within the context of contractual and comparable legal relationships as well as associated actions and communication with the contractual partners or pre-contractually, e.g. to answer inquiries.

We process this data in order to fulfill our contractual obligations. These include, in particular, the obligations to provide the agreed services, any update obligations and remedies in the event of warranty and other service disruptions. In addition, we process the data to protect our rights and for the purpose of administrative tasks associated with these obligations and company organization. Furthermore, we process the data on the basis of our legitimate interests in proper and economical business management as well as security measures to protect our contractual partners and our business operations from misuse, endangerment of their data, secrets, information and rights (e.g. for the involvement of telecommunications, transport and other auxiliary services as well as subcontractors, banks, tax and legal advisors, payment service providers or tax authorities). Within the framework of applicable law, we only disclose the data of contractual partners to third parties to the extent that this is necessary for the aforementioned purposes or to fulfill legal obligations. Contractual partners will be informed about further forms of processing, e.g. for marketing purposes, within the scope of this privacy policy.

Which data are necessary for the aforementioned purposes, we inform the contracting partners before or in the context of the data collection, e.g. in online forms by special marking (e.g. colors), and/or symbols (e.g. asterisks or the like), or personally.

We delete the data after expiry of statutory warranty and comparable obligations, i.e. in principle after expiry of 4 years, unless the data is stored in a customer

account or must be kept for legal reasons of archiving. The statutory retention period for documents relevant under tax law as well as for commercial books, inventories, opening balance sheets, annual financial statements, the instructions required to understand these documents and other organizational documents and accounting records is ten years and for received commercial and business letters and reproductions of sent commercial and business letters six years. The period begins at the end of the calendar year in which the last entry was made in the book, the inventory, the opening balance sheet, the annual financial statements or the management report was prepared, the commercial or business letter was received or sent, or the accounting document was created, furthermore the record was made or the other documents were created.

- **Processed data types:** Inventory data (For example, the full name, residential address, contact information, customer number, etc.); Payment Data (e.g. bank details, invoices, payment history); Contact data (e.g. postal and email addresses or phone numbers); Contract data (e.g. contract object, duration, customer category); Usage data (e.g. page views and duration of visit, click paths, intensity and frequency of use, types of devices and operating systems used, interactions with content and features). Meta, communication and process data (e.g. IP addresses, timestamps, identification numbers, involved parties).
- **Data subjects:** Service recipients and clients; Prospective customers. Business and contractual partners.
- **Purposes of processing:** Provision of contractual services and fulfillment of contractual obligations; Security measures; Communication; Office and organisational procedures; Organisational and Administrative Procedures. Business processes and management procedures.
- **Retention and deletion:** Deletion in accordance with the information provided in the section "General Information on Data Retention and Deletion".
- **Legal Basis:** Performance of a contract and prior requests (Article 6 (1) (b) GDPR); Compliance with a legal obligation (Article 6 (1) (c) GDPR). Legitimate Interests (Article 6 (1) (f) GDPR).

Further information on processing methods, procedures and services used:

- **Online shop, order forms, e-commerce and delivery.:** We process the data of our customers in order to enable them to select, purchase or order the selected products, goods and related services, as well as their payment and delivery, or performance of other services. If necessary for the execution of an order, we use service providers, in particular postal, freight and shipping companies, in order to carry out the delivery or execution to our customers. For the processing of payment transactions we use the services of banks and payment service providers. The required details are identified as such in the

course of the ordering or comparable purchasing process and include the details required for delivery, or other way of making the product available and invoicing as well as contact information in order to be able to hold any consultation; **Legal Basis:** Performance of a contract and prior requests (Article 6 (1) (b) GDPR).

Business processes and operations

Personal data of service recipients and clients - including customers, clients, or in specific cases, mandates, patients, or business partners as well as other third parties - are processed within the framework of contractual and comparable legal relationships and pre-contractual measures such as the initiation of business relations. This data processing supports and facilitates business processes in areas such as customer management, sales, payment transactions, accounting, and project management.

The collected data is used to fulfil contractual obligations and make business processes efficient. This includes the execution of business transactions, the management of customer relationships, the optimisation of sales strategies, and ensuring internal invoicing and financial processes. Additionally, the data supports the protection of the rights of the controller and promotes administrative tasks as well as the organisation of the company.

Personal data may be transferred to third parties if necessary for fulfilling the mentioned purposes or legal obligations. After legal retention periods expire or when the purpose of processing no longer applies, the data will be deleted. This also includes data that must be stored for longer periods due to tax law and legal obligations to provide evidence.

- **Processed data types:** Inventory data (For example, the full name, residential address, contact information, customer number, etc.); Payment Data (e.g. bank details, invoices, payment history); Contact data (e.g. postal and email addresses or phone numbers); Content data (e.g. textual or pictorial messages and contributions, as well as information pertaining to them, such as details of authorship or the time of creation.). Contract data (e.g. contract object, duration, customer category).
- **Data subjects:** Service recipients and clients; Prospective customers; Communication partner (Recipients of e-mails, letters, etc.). Business and contractual partners.
- **Purposes of processing:** Provision of contractual services and fulfillment of contractual obligations; Office and organisational procedures. Business processes and management procedures.

- **Retention and deletion:** Deletion in accordance with the information provided in the section "General Information on Data Retention and Deletion".
- **Legal Basis:** Performance of a contract and prior requests (Article 6 (1) (b) GDPR). Legitimate Interests (Article 6 (1) (f) GDPR).

Use of online platforms for listing and sales purposes

We offer our services on online platforms operated by other service providers. In addition to our privacy policy, the privacy policies of the respective platforms apply. This is particularly true with regard to the payment process and the methods used on the platforms for performance measuring and behaviour-related marketing.

- **Processed data types:** Inventory data (For example, the full name, residential address, contact information, customer number, etc.); Payment Data (e.g. bank details, invoices, payment history); Contact data (e.g. postal and email addresses or phone numbers); Contract data (e.g. contract object, duration, customer category); Usage data (e.g. page views and duration of visit, click paths, intensity and frequency of use, types of devices and operating systems used, interactions with content and features). Meta, communication and process data (e.g. IP addresses, timestamps, identification numbers, involved parties).
- **Data subjects:** Service recipients and clients. Business and contractual partners.
- **Purposes of processing:** Provision of contractual services and fulfillment of contractual obligations; Marketing. Business processes and management procedures.
- **Retention and deletion:** Deletion in accordance with the information provided in the section "General Information on Data Retention and Deletion".
- **Legal Basis:** Performance of a contract and prior requests (Article 6 (1) (b) GDPR). Legitimate Interests (Article 6 (1) (f) GDPR).

Providers and services used in the course of business

As part of our business activities, we use additional services, platforms, interfaces or plug-ins from third-party providers (in short, "services") in compliance with legal requirements. Their use is based on our interests in the proper, legal and economic management of our business operations and internal organization.

- **Processed data types:** Inventory data (For example, the full name, residential address, contact information, customer number, etc.); Payment Data (e.g. bank details, invoices, payment history); Contact data (e.g. postal and email addresses or phone numbers); Content data (e.g. textual or pictorial messages and contributions, as well as information pertaining to them, such as details of authorship or the time of creation.). Contract data (e.g. contract object, duration, customer category).
- **Data subjects:** Service recipients and clients; Prospective customers. Business and contractual partners.
- **Purposes of processing:** Provision of contractual services and fulfillment of contractual obligations; Office and organisational procedures. Business processes and management procedures.
- **Retention and deletion:** Deletion in accordance with the information provided in the section "General Information on Data Retention and Deletion".
- **Legal Basis:** Legitimate Interests (Article 6 (1) (f) GDPR).

Payment Procedure

Within the framework of contractual and other legal relationships, due to legal obligations or otherwise on the basis of our legitimate interests, we offer data subjects efficient and secure payment options and use other service providers for this purpose in addition to banks and credit institutions (collectively referred to as "payment service providers").

The data processed by the payment service providers includes inventory data, such as the name and address, bank data, such as account numbers or credit card numbers, passwords, TANs and checksums, as well as the contract, total and recipient-related information. The information is required to carry out the transactions. However, the data entered is only processed by the payment service providers and stored with them. I.e. we do not receive any account or credit card related information, but only information with confirmation or negative information of the payment. Under certain circumstances, the data may be transmitted by the payment service providers to credit agencies. The purpose of this transmission is to check identity and creditworthiness. Please refer to the terms and conditions and data protection information of the payment service providers.

The terms and conditions and data protection information of the respective payment service providers apply to the payment transactions and can be accessed within the respective websites or transaction applications. We also refer to these for further information and the assertion of revocation, information and other data subject rights.

- **Processed data types:** Inventory data (For example, the full name, residential address, contact information, customer number, etc.); Payment Data (e.g. bank details, invoices, payment history); Contract data (e.g. contract object, duration, customer category); Usage data (e.g. page views and duration of visit, click paths, intensity and frequency of use, types of devices and operating systems used, interactions with content and features). Meta, communication and process data (e.g. IP addresses, timestamps, identification numbers, involved parties).
- **Data subjects:** Service recipients and clients; Business and contractual partners. Prospective customers.
- **Purposes of processing:** Provision of contractual services and fulfillment of contractual obligations. Business processes and management procedures.
- **Retention and deletion:** Deletion in accordance with the information provided in the section "General Information on Data Retention and Deletion".
- **Legal Basis:** Performance of a contract and prior requests (Article 6 (1) (b) GDPR). Legitimate Interests (Article 6 (1) (f) GDPR).

Further information on processing methods, procedures and services used:

- **Mastercard:** Payment-Service-Provider (technical integration of online-payment-methods); **Service provider:** Mastercard Europe SA, Chaussée de Tervuren 198A, B-1410 Waterloo, Belgium; **Legal Basis:** Performance of a contract and prior requests (Article 6 (1) (b) GDPR); **Website:** <https://www.mastercard.co.uk>; **Privacy Policy:** <https://www.mastercard.co.uk/en-gb/vision/terms-of-use/commitment-to-privacy/privacy.html>. **Basis for third-country transfers:** Switzerland - Adequacy decision (Belgium).
- **PayPal:** Payment-Service-Provider (technical integration of online-payment-methods) (e.g. PayPal, PayPal Plus, Braintree, Braintree); **Service provider:** PayPal (Europe) S.à r.l. et Cie, S.C.A., 22-24 Boulevard Royal, L-2449 Luxembourg; **Legal Basis:** Performance of a contract and prior requests (Article 6 (1) (b) GDPR); **Website:** <https://www.paypal.com>; **Privacy Policy:** <https://www.paypal.com/de/webapps/mpp/ua/privacy-full>. **Basis for third-country transfers:** Switzerland - Adequacy decision (Luxembourg).
- **Visa:** Payment-Service-Provider (technical integration of online-payment-methods); **Service provider:** Visa Europe Services Inc., Zweigniederlassung London, 1 Sheldon Square, London W2 6TT, UK; **Legal Basis:** Performance of a contract and prior requests (Article 6 (1) (b) GDPR); **Website:** <https://www.visa.de>; **Privacy Policy:** <https://www.visa.de/datenschutz>. **Basis for third-country transfers:** EEA - Adequacy decision (UK), Switzerland - Adequacy decision (UK).

Credit Assessment

Insofar as we make advance payments or enter into comparable economic risks (e.g. when ordering on account), we reserve the right to obtain identity and credit information from specialised service providers (credit agencies) for the purpose of assessing the credit risk on the basis of mathematical-statistical procedures in order to safeguard legitimate interests.

We process the information received from credit agencies on the statistical probability of non-payment as part of an appropriate discretionary decision on the establishment, execution and termination of the contractual relationship. In the event of a negative result of the credit assessment, we reserve the right to refuse payment on account or any other advance payment.

In accordance with the law, the decision as to whether we will provide goods or services prior to payment is made solely on the basis of an automated decision in the individual case, which our software makes on the basis of the information provided by the credit agency.

If we obtain the express consent of contractual partners, the legal basis for the credit information and the transmission of the customer's data to the credit agencies is consent. If no consent is obtained, the credit rating will be based on our legitimate interests in the security of our payment claims.

- **Processed data types:** Inventory data (For example, the full name, residential address, contact information, customer number, etc.); Payment Data (e.g. bank details, invoices, payment history); Contact data (e.g. postal and email addresses or phone numbers); Contract data (e.g. contract object, duration, customer category); Creditworthiness Data (e.g. received credit score, estimated default probability, risk classification based on this, historical payment behaviour). Usage data (e.g. page views and duration of visit, click paths, intensity and frequency of use, types of devices and operating systems used, interactions with content and features).
- **Data subjects:** Service recipients and clients; Prospective customers. Business and contractual partners.
- **Purposes of processing:** Assessment of creditworthiness.
- **Retention and deletion:** Deletion in accordance with the information provided in the section "General Information on Data Retention and Deletion".
- **Legal Basis:** Consent (Article 6 (1) (a) GDPR). Legitimate Interests (Article 6 (1) (f) GDPR).
- **Automated individual decision-making:** Credit report (Decision based on a credit report).

Further information on processing methods, procedures and services used:

- **Verband der Vereine Creditreform e.V.:** Credit agency; **Service provider:** Verband der Vereine Creditreform e.V., Hellersbergstraße 12, D-41460 Neuss, Germany; **Legal Basis:** Legitimate Interests (Article 6 (1) (f) GDPR); **Website:** <https://www.creditreform.de/>; **Privacy Policy:** <https://www.creditreform.de/datenschutz>. **Basis for third-country transfers:** Switzerland - Adequacy decision (Germany).

Provision of online services and web hosting

We process user data in order to be able to provide them with our online services. For this purpose, we process the IP address of the user, which is necessary to transmit the content and functions of our online services to the user's browser or terminal device.

- **Processed data types:** Usage data (e.g. page views and duration of visit, click paths, intensity and frequency of use, types of devices and operating systems used, interactions with content and features); Meta, communication and process data (e.g. IP addresses, timestamps, identification numbers, involved parties); Log data (e.g. log files concerning logins or data retrieval or access times.). Content data (e.g. textual or pictorial messages and contributions, as well as information pertaining to them, such as details of authorship or the time of creation.).
- **Data subjects:** Users (e.g. website visitors, users of online services).
- **Purposes of processing:** Provision of our online services and usability; Information technology infrastructure (Operation and provision of information systems and technical devices, such as computers, servers, etc.). Provision of contractual services and fulfillment of contractual obligations.
- **Retention and deletion:** Deletion in accordance with the information provided in the section "General Information on Data Retention and Deletion".
- **Legal Basis:** Legitimate Interests (Article 6 (1) (f) GDPR).

Further information on processing methods, procedures and services used:

- **Provision of online offer on rented hosting space:** For the provision of our online services, we use storage space, computing capacity and software that we rent or otherwise obtain from a corresponding server provider (also referred to as a "web hoster"); **Legal Basis:** Legitimate Interests (Article 6 (1) (f) GDPR).
- **E-mail Sending and Hosting:** The web hosting services we use also include

sending, receiving and storing e-mails. For these purposes, the addresses of the recipients and senders, as well as other information relating to the sending of e-mails (e.g. the providers involved) and the contents of the respective e-mails are processed. The above data may also be processed for SPAM detection purposes. Please note that e-mails on the Internet are generally not sent in encrypted form. As a rule, e-mails are encrypted during transport, but not on the servers from which they are sent and received (unless a so-called end-to-end encryption method is used). We can therefore accept no responsibility for the transmission path of e-mails between the sender and reception on our server; **Legal Basis:** Legitimate Interests (Article 6 (1) (f) GDPR).

- **Hetzner:** Services in the field of the provision of information technology infrastructure and related services (e.g. storage space and/or computing capacities); **Service provider:** Hetzner Online GmbH, Industriestr. 25, 91710 Gunzenhausen, Germany; **Legal Basis:** Legitimate Interests (Article 6 (1) (f) GDPR); **Website:** <https://www.hetzner.com>; **Privacy Policy:** <https://www.hetzner.com/de/rechtliches/datenschutz>; **Data Processing Agreement:** <https://docs.hetzner.com/de/general/general-terms-and-conditions/data-privacy-faq/>. **Basis for third-country transfers:** Switzerland - Adequacy decision (Germany).
- **1&1 IONOS:** Services in the field of the provision of information technology infrastructure and related services (e.g. storage space and/or computing capacities); **Service provider:** 1&1 IONOS SE, Elgendorfer Str. 57, 56410 Montabaur, Germany; **Legal Basis:** Legitimate Interests (Article 6 (1) (f) GDPR); **Website:** <https://www.ionos.com>; **Privacy Policy:** <https://www.ionos.com/terms-gtc/privacy-policy/>; **Data Processing Agreement:** <https://www.ionos.de/hilfe/datenschutz/allgemeine-informationen-zur-datenschutz-grundverordnung-dsgvo/auftragsverarbeitung/>. **Basis for third-country transfers:** Switzerland - Adequacy decision (Germany).

Use of Cookies

The term "cookies" refers to functions that store information on users' devices and read it from them. Cookies can also be used for different purposes, such as ensuring the functionality, security, and convenience of online services, as well as analyzing visitor traffic. We use cookies in accordance with legal regulations. If necessary, we obtain users' consent in advance. If consent is not required, we rely on our legitimate interests. This applies when storing and reading information is essential to provide explicitly requested content and functions. This includes, for example, saving settings and ensuring the functionality and security of our online services. Consent can be withdrawn at any time. We clearly inform users about the

scope of the consent and which cookies are used.

Information on legal data protection bases: Whether we process personal data using cookies depends on users' consent. If consent is given, it serves as the legal basis. Without consent, we rely on our legitimate interests, as outlined in this section and in the context of the respective services and procedures.

Storage duration: The following types of cookies are distinguished based on their storage duration:

- **Temporary cookies (also: session cookies):** Temporary cookies are deleted at the latest after a user leaves an online service and closes their device (e.g., browser or mobile application).
- **Permanent cookies:** Permanent cookies remain stored even after the device is closed. For example, the login status can be saved, and preferred content can be displayed directly when the user revisits a website. Additionally, the user data collected with cookies may be used for audience measurement. Unless we provide explicit information to users about the type and storage duration of cookies (e.g., when obtaining consent), users should assume that these are permanent and may have a storage duration of up to two years.

General information on withdrawal and objection (opt-out): Users can withdraw their consent at any time and also object to the processing according to legal regulations, including through the privacy settings of their browser.

- **Processed data types:** Meta, communication and process data (e.g. IP addresses, timestamps, identification numbers, involved parties).
- **Data subjects:** Users (e.g. website visitors, users of online services).
- **Legal Basis:** Legitimate Interests (Article 6 (1) (f) GDPR). Consent (Article 6 (1) (a) GDPR).

Further information on processing methods, procedures and services used:

- **Processing Cookie Data on the Basis of Consent:** We implement a consent management solution that obtains users' consent for the use of cookies or for the processes and providers mentioned within the consent management framework. This procedure is designed to solicit, log, manage, and revoke consents, particularly regarding the use of cookies and similar technologies employed to store, read from, and process information on users' devices. As part of this procedure, user consents are obtained for the use of cookies and the associated processing of information, including specific processing and providers named in the consent management process. Users also have the option to manage and withdraw their consents. Consent declarations are stored to avoid repeated queries and to provide proof of

consent according to legal requirements. The storage is carried out server-side and/or in a cookie (so-called opt-in cookie) or by means of comparable technologies in order to associate the consent with a specific user or their device. If no specific details about the providers of consent management services are provided, the following general notes apply: The duration of consent storage is up to two years. A pseudonymous user identifier is created, which is stored along with the time of consent, details on the scope of consent (e.g., relevant categories of cookies and/or service providers), as well as information about the browser, system, and device used; **Legal Basis:** Consent (Article 6 (1) (a) GDPR).

Special Notes on Applications (Apps)

We process the data of the users of our application to the extent necessary to provide the users with the application and its functionalities, to monitor its security and to develop it further. Furthermore, we may contact users in compliance with the statutory provisions if communication is necessary for the purposes of administration or use of the application. In addition, we refer to the data protection information in this privacy policy with regard to the processing of user data.

Legal basis: The processing of data necessary for the provision of the functionalities of the application serves to fulfil contractual obligations. This also applies if the provision of the functions requires user authorisation (e.g. release of device functions). If the processing of data is not necessary for the provision of the functionalities of the application, but serves the security of the application or our business interests (e.g. collection of data for the purpose of optimising the application or security purposes), it is carried out on the basis of our legitimate interests. If users are expressly requested to give their consent to the processing of their data, the data covered by the consent is processed on the basis of the consent.

- **Processed data types:** Inventory data (For example, the full name, residential address, contact information, customer number, etc.); Usage data (e.g. page views and duration of visit, click paths, intensity and frequency of use, types of devices and operating systems used, interactions with content and features); Meta, communication and process data (e.g. IP addresses, timestamps, identification numbers, involved parties); Payment Data (e.g. bank details, invoices, payment history); Contract data (e.g. contract object, duration, customer category). Images and/ or video recordings (e.g. photographs or video recordings of a person).
- **Data subjects:** Users (e.g. website visitors, users of online services).
- **Purposes of processing:** Provision of contractual services and fulfillment of contractual obligations; Security measures. Provision of our online services and usability.

- **Retention and deletion:** Deletion in accordance with the information provided in the section "General Information on Data Retention and Deletion".
- **Legal Basis:** Performance of a contract and prior requests (Article 6 (1) (b) GDPR). Legitimate Interests (Article 6 (1) (f) GDPR).

Further information on processing methods, procedures and services used:

- **Commercial use:** We process the data of the users of our application, registered and any test users (hereinafter uniformly referred to as "users") in order to provide them with our contractual services and on the basis of legitimate interests to ensure the security of our application and to develop it further. The required details are identified as such within the scope of the conclusion of a contract for the use of the application, the conclusion of an order, an order or a comparable contract and may include the details required for the provision of services and any invoicing as well as contact information in order to be able to hold any consultations; **Legal Basis:** Performance of a contract and prior requests (Article 6 (1) (b) GDPR).
- **Device authorizations for access to functions and data:** The use of certain functions of our application may require access to the camera and the stored recordings of the users. By default, these authorizations must be granted by the user and can be revoked at any time in the settings of the respective devices. The exact procedure for controlling app permissions may depend on the user's device and software. Users can contact us if they require further explanation. We would like to point out that the refusal or revocation of the respective authorizations can affect the functionality of our application.
- **Accessing the camera and stored recordings:** In the course of using our application, image and/or video recordings (whereby audio recordings are also included) of the users (and of other persons captured by the recordings) are processed by accessing the camera functions or stored recordings. Access to the camera functions or stored recordings requires an authorization by the user that can be withdrawn at any time. The processing of the image and/or video recordings serves only to provide the respective functionality of our application, according to its description to the users or the typical and expectable functionality of the application.

Purchase of applications via Appstores

The purchase of our apps is done via special online platforms operated by other service providers (so-called "appstores"). In this context, the data protection notices of the respective appstores apply in addition to our data protection notices. This applies in particular with regard to the methods used on the platforms for

webanalytics and for interest-related marketing as well as possible costs.

- **Processed data types:** Inventory data (For example, the full name, residential address, contact information, customer number, etc.); Payment Data (e.g. bank details, invoices, payment history); Contact data (e.g. postal and email addresses or phone numbers); Contract data (e.g. contract object, duration, customer category); Usage data (e.g. page views and duration of visit, click paths, intensity and frequency of use, types of devices and operating systems used, interactions with content and features). Meta, communication and process data (e.g. IP addresses, timestamps, identification numbers, involved parties).
- **Data subjects:** Service recipients and clients. Users (e.g. website visitors, users of online services).
- **Purposes of processing:** Provision of contractual services and fulfillment of contractual obligations; Marketing. Provision of our online services and usability.
- **Retention and deletion:** Deletion in accordance with the information provided in the section "General Information on Data Retention and Deletion".
- **Legal Basis:** Legitimate Interests (Article 6 (1) (f) GDPR).

Further information on processing methods, procedures and services used:

- **Apple App Store:** App and software distribution platform; **Service provider:** Apple Inc., Infinite Loop, Cupertino, CA 95014, USA; **Legal Basis:** Legitimate Interests (Article 6 (1) (f) GDPR); **Website:** <https://www.apple.com/app-store/>; **Privacy Policy:** <https://www.apple.com/privacy/privacy-policy/>.
- **Google Play:** App and software distribution platform; **Service provider:** Google Ireland Limited, Gordon House, Barrow Street, Dublin 4, Ireland; **Legal Basis:** Legitimate Interests (Article 6 (1) (f) GDPR); **Website:** <https://play.google.com/store/apps?hl=en>; **Privacy Policy:** <https://policies.google.com/privacy>. **Basis for third-country transfers:** Switzerland - Adequacy decision (Ireland).
- **Microsoft Store:** App and software distribution platform; **Service provider:** Microsoft Ireland Operations Limited, One Microsoft Place, South County Business Park, Leopardstown, Dublin 18, D18 P521, Ireland; **Legal Basis:** Legitimate Interests (Article 6 (1) (f) GDPR); **Website:** <https://www.microsoft.com/en-gb/store>; **Privacy Policy:** <https://privacy.microsoft.com/de-de/privacystatement>, Security information: <https://www.microsoft.com/de-de/trustcenter>. **Basis for third-country transfers:** EEA - Data Privacy Framework (DPF), Switzerland - Adequacy decision (Ireland).

Contact and Inquiry Management

When contacting us (e.g. via mail, contact form, e-mail, telephone or via social media) as well as in the context of existing user and business relationships, the information of the inquiring persons is processed to the extent necessary to respond to the contact requests and any requested measures.

- **Processed data types:** Inventory data (For example, the full name, residential address, contact information, customer number, etc.); Contact data (e.g. postal and email addresses or phone numbers). Content data (e.g. textual or pictorial messages and contributions, as well as information pertaining to them, such as details of authorship or the time of creation.).
- **Data subjects:** Communication partner (Recipients of e-mails, letters, etc.).
- **Purposes of processing:** Communication; Organisational and Administrative Procedures; Feedback (e.g. collecting feedback via online form). Provision of our online services and usability.
- **Retention and deletion:** Deletion in accordance with the information provided in the section "General Information on Data Retention and Deletion".
- **Legal Basis:** Legitimate Interests (Article 6 (1) (f) GDPR).

Artificial Intelligence (AI)

We use artificial intelligence (AI), which involves the processing of personal data. The specific purposes and our interest in using AI are mentioned below. According to the term "AI system" as defined in Article 3 No. 1 of the AI Regulation, we understand AI to be a machine-based system designed for varying degrees of autonomous operation, capable of adaptation after deployment, and producing outputs such as predictions, content, recommendations, or decisions that can influence physical or virtual environments.

Our AI systems are used in strict compliance with legal requirements. These include both specific regulations for artificial intelligence and data protection requirements. In particular, we adhere to the principles of lawfulness, transparency, fairness, human oversight, purpose limitation, data minimisation, integrity and confidentiality. We ensure that the processing of personal data is always based on a legal foundation. This may either be the consent of the data subjects or a statutory permission.

When using external AI systems, we carefully select their providers (hereinafter referred to as "AI providers"). In accordance with our legal obligations, we ensure that the AI providers comply with applicable provisions. We also observe our duties

when using or operating the acquired AI services. The processing of personal data by us and the AI providers is carried out exclusively on the basis of consent or legal authorisation. We place particular emphasis on transparency, fairness and maintaining human oversight over AI-supported decision-making processes.

To protect processed data, we implement appropriate and robust technical as well as organisational measures. These ensure the integrity and confidentiality of processed data and minimise potential risks. Through regular reviews of AI providers and their services, we ensure ongoing compliance with current legal and ethical standards.

- **Processed data types:** Content data (e.g. textual or pictorial messages and contributions, as well as information pertaining to them, such as details of authorship or the time of creation.). Usage data (e.g. page views and duration of visit, click paths, intensity and frequency of use, types of devices and operating systems used, interactions with content and features).
- **Data subjects:** Users (e.g. website visitors, users of online services). Third parties.
- **Purposes of processing:** Artificial Intelligence (AI).
- **Retention and deletion:** Deletion in accordance with the information provided in the section "General Information on Data Retention and Deletion".

Video Conferences, Online Meetings, Webinars and Screen-Sharing

We use platforms and applications of other providers (hereinafter referred to as "Conference Platforms") for the purpose of conducting video and audio conferences, webinars and other types of video and audio meetings (hereinafter collectively referred to as "Conference"). When using the Conference Platforms and their services, we comply with the legal requirements.

Data processed by Conference Platforms: In the course of participation in a Conference, the Data of the participants listed below are processed. The scope of the processing depends, on the one hand, on which data is requested in the context of a specific Conference (e.g., provision of access data or clear names) and which optional information is provided by the participants. In addition to processing for the purpose of conducting the conference, participants' Data may also be processed by the Conference Platforms for security purposes or service optimization. The processed Data includes personal information (first name, last name), contact information (e-mail address, telephone number), access data (access codes or passwords), profile pictures, information on professional position/function, the IP address of the internet access, information on the participants' end devices, their

operating system, the browser and its technical and linguistic settings, information on the content-related communication processes, i.e. entries in chats and audio and video data, as well as the use of other available functions (e.g. surveys). The content of communications is encrypted to the extent technically provided by the conference providers. If participants are registered as users with the Conference Platforms, then further data may be processed in accordance with the agreement with the respective Conference Provider.

Logging and recording: If text entries, participation results (e.g. from surveys) as well as video or audio recordings are recorded, this will be transparently communicated to the participants in advance and they will be asked - if necessary - for their consent.

Data protection measures of the participants: Please refer to the data privacy information of the Conference Platforms for details on the processing of your data and select the optimum security and data privacy settings for you within the framework of the settings of the conference platforms. Furthermore, please ensure data and privacy protection in the background of your recording for the duration of a Conference (e.g., by notifying roommates, locking doors, and using the background masking function, if technically possible). Links to the conference rooms as well as access data, should not be passed on to unauthorized third parties.

Notes on legal bases: Insofar as, in addition to the Conference Platforms, we also process users' data and ask users for their consent to use contents from the Conferences or certain functions (e.g. consent to a recording of Conferences), the legal basis of the processing is this consent. Furthermore, our processing may be necessary for the fulfillment of our contractual obligations (e.g. in participant lists, in the case of reprocessing of Conference results, etc.). Otherwise, user data is processed on the basis of our legitimate interests in efficient and secure communication with our communication partners.

- **Processed data types:** Inventory data (For example, the full name, residential address, contact information, customer number, etc.); Contact data (e.g. postal and email addresses or phone numbers); Content data (e.g. textual or pictorial messages and contributions, as well as information pertaining to them, such as details of authorship or the time of creation.); Usage data (e.g. page views and duration of visit, click paths, intensity and frequency of use, types of devices and operating systems used, interactions with content and features); Images and/ or video recordings (e.g. photographs or video recordings of a person); Audio recordings. Log data (e.g. log files concerning logins or data retrieval or access times.).
- **Data subjects:** Communication partner (Recipients of e-mails, letters, etc.); Users (e.g. website visitors, users of online services). Persons depicted.
- **Purposes of processing:** Provision of contractual services and fulfillment of

contractual obligations; Communication. Office and organisational procedures.

- **Retention and deletion:** Deletion in accordance with the information provided in the section "General Information on Data Retention and Deletion".
- **Legal Basis:** Legitimate Interests (Article 6 (1) (f) GDPR).

Further information on processing methods, procedures and services used:

- **Google Hangouts / Meet:** Conference and communication software; **Service provider:** Google Ireland Limited, Gordon House, Barrow Street, Dublin 4, Ireland; **Legal Basis:** Legitimate Interests (Article 6 (1) (f) GDPR); **Website:** <https://hangouts.google.com/>; **Privacy Policy:** <https://policies.google.com/privacy>; **Data Processing Agreement:** <https://cloud.google.com/terms/data-processing-addendum>. **Basis for third-country transfers:** EEA - Data Privacy Framework (DPF), Switzerland - Adequacy decision (Ireland).
- **Microsoft Teams:** Audio and video conferencing, chat, file sharing, integration with Office 365 applications, real-time collaboration on documents, calendar functions, task management, screen sharing, optional recording; **Service provider:** Microsoft Ireland Operations Limited, One Microsoft Place, South County Business Park, Leopardstown, Dublin 18, D18 P521, Ireland; **Legal Basis:** Legitimate Interests (Article 6 (1) (f) GDPR); **Website:** <https://www.microsoft.com/microsoft-teams/>; **Privacy Policy:** <https://privacy.microsoft.com/de-de/privacystatement>, Security information: <https://www.microsoft.com/de-de/trustcenter>. **Basis for third-country transfers:** EEA - Data Privacy Framework (DPF), Switzerland - Adequacy decision (Ireland).

Newsletter and Electronic Communications

We send newsletters, emails, and other electronic notifications (hereinafter "newsletters") exclusively with the consent of the recipients or based on a legal basis. If the contents of the newsletter are specified during registration for the newsletter, these contents are decisive for the users' consent. Normally, providing your email address is sufficient to sign up for our newsletter. However, to offer you a personalised service, we may ask for your name for personal salutation in the newsletter or for additional information if necessary for the purpose of the newsletter.

Deletion and restriction of processing: We may store unsubscribed email addresses for up to three years based on our legitimate interests before deleting them to be able to demonstrate previously given consent. The processing of these data is limited to the purpose of potentially defending against claims. An individual request

for deletion is possible at any time, provided that at the same time the former existence of consent is confirmed. In case of obligations to permanently observe objections, we reserve the right to store the email address solely for this purpose in a blocklist.

The logging of the registration process is based on our legitimate interests for the purpose of proving its proper execution. If we commission a service provider to send emails, this is done based on our legitimate interests in an efficient and secure mailing system.

Contents:

Information about us, our services, promotions and offers.

- **Processed data types:** Inventory data (For example, the full name, residential address, contact information, customer number, etc.); Contact data (e.g. postal and email addresses or phone numbers); Meta, communication and process data (e.g. IP addresses, timestamps, identification numbers, involved parties). Usage data (e.g. page views and duration of visit, click paths, intensity and frequency of use, types of devices and operating systems used, interactions with content and features).
- **Data subjects:** Communication partner (Recipients of e-mails, letters, etc.). Users (e.g. website visitors, users of online services).
- **Purposes of processing:** Direct marketing (e.g. by e-mail or postal). Provision of contractual services and fulfillment of contractual obligations.
- **Legal Basis:** Consent (Article 6 (1) (a) GDPR).
- **Opt-Out:** You can cancel the receipt of our newsletter at any time, i.e. revoke your consent or object to further receipt. You will find a link to cancel the newsletter either at the end of each newsletter or you can otherwise use one of the contact options listed above, preferably e-mail.

Further information on processing methods, procedures and services used:

- **Measurement of opening rates and click rates:** The newsletters contain a so-called "web beacons", which is a pixel-sized file that is retrieved from our server, or the server of the dispatch service provider if one is used, when the newsletter is opened. In the course of this retrieval, technical information such as details about the browser and your system, as well as your IP address and the time of access are collected. This information is used to technically improve our newsletter based on technical data or target audiences and their reading behavior, which can be determined by their access locations (identifiable by IP address) or access times. This analysis also includes determining whether and when newsletters are opened and which links are clicked. The information is assigned to individual newsletter recipients and

stored in their profiles until deletion. The evaluations serve to recognize the reading habits of our users and adjust our content to them or send different content according to the interests of our users. The measurement of opening and click rates, as well as the storage of the measurement results in user profiles and their further processing, are based on user consent.

Unfortunately, it is not possible to revoke success measurement separately; in this case, the entire newsletter subscription must be cancelled or objected to. In that case, stored profile information will be deleted; **Legal Basis:** Consent (Article 6 (1) (a) GDPR).

- **Prerequisite for the use of free services:** Consent to the sending of mailings can be made dependent on the use of free services (e.g. access to certain content or participation in certain campaigns) as a prerequisite. If the users would like to take advantage of the free service without registering for the newsletter, we offer them to contact us.

Commercial communication by E-Mail, Postal Mail, Fax or Telephone

We process personal data for the purposes of promotional communication, which may be carried out via various channels, such as e-mail, telephone, post or fax, in accordance with the legal requirements.

The recipients have the right to withdraw their consent at any time or to object to the advertising communication at any time.

After revocation or objection, we store the data required to prove the past authorization to contact or send up to three years from the end of the year of revocation or objection on the basis of our legitimate interests. The processing of this data is limited to the purpose of a possible defense against claims. Based on the legitimate interest to permanently observe the revocation, respectively objection of the users, we further store the data necessary to avoid a renewed contact (e.g. depending on the communication channel, the e-mail address, telephone number, name).

- **Processed data types:** Inventory data (For example, the full name, residential address, contact information, customer number, etc.); Contact data (e.g. postal and email addresses or phone numbers). Content data (e.g. textual or pictorial messages and contributions, as well as information pertaining to them, such as details of authorship or the time of creation.).
- **Data subjects:** Communication partner (Recipients of e-mails, letters, etc.).
- **Purposes of processing:** Direct marketing (e.g. by e-mail or postal); Marketing. Sales promotion.

- **Retention and deletion:** Deletion in accordance with the information provided in the section "General Information on Data Retention and Deletion".
- **Legal Basis:** Consent (Article 6 (1) (a) GDPR). Legitimate Interests (Article 6 (1) (f) GDPR).

Surveys and Questionnaires

We conduct surveys and interviews to gather information for the survey purpose communicated in each case. The surveys and questionnaires ("surveys") carried out by us are evaluated anonymously. Personal data is only processed insofar as this is necessary for the provision and technical execution of the survey (e.g. processing the IP address to display the survey in the user's browser or to enable a resumption of the survey with the aid of a cookie).

- **Processed data types:** Inventory data (For example, the full name, residential address, contact information, customer number, etc.); Contact data (e.g. postal and email addresses or phone numbers); Content data (e.g. textual or pictorial messages and contributions, as well as information pertaining to them, such as details of authorship or the time of creation.). Usage data (e.g. page views and duration of visit, click paths, intensity and frequency of use, types of devices and operating systems used, interactions with content and features).
- **Data subjects:** Participants.
- **Purposes of processing:** Feedback (e.g. collecting feedback via online form). Polls and Questionnaires (e.g. surveys with input options, multiple choice questions).
- **Retention and deletion:** Deletion in accordance with the information provided in the section "General Information on Data Retention and Deletion".
- **Legal Basis:** Legitimate Interests (Article 6 (1) (f) GDPR).

Web Analysis, Monitoring and Optimization

Web analytics (also referred to as "reach measurement") is used to evaluate the visitor flows of our online services and may include pseudonymous values related to visitor behavior, interests, or demographic information such as age or gender. Through reach analysis, we can, for example, identify when our online services or their functions and content are most frequently used or likely to encourage repeat visits. It also enables us to determine which areas need optimization.

In addition to web analytics, we may also use testing procedures to test and

optimize different versions of our online services or their components.

Unless otherwise specified below, profiles (i.e., data combined from a usage process) may be created for these purposes, and information can be stored in and later retrieved from a browser or device. The data collected includes, in particular, visited websites and elements used on them, as well as technical information such as the browser used, the computer system, and information about usage times. If users have given consent to the collection of their location data to us or to the providers of the services we use, the processing of location data is also possible.

Additionally, users' IP addresses are stored. However, we use an IP masking process (i.e., pseudonymization by shortening the IP address) to protect users. In general, no clear user data (such as email addresses or names) is stored as part of web analytics, A/B testing, or optimization. Instead, pseudonyms are used. This means that neither we nor the providers of the software used know the actual identity of the users, only the information stored in their profiles for the respective procedures.

Legal basis information: If we ask users for their consent to use third-party providers, the legal basis for data processing is consent. Otherwise, user data is processed based on our legitimate interests (i.e., our interest in efficient, economic, and user-friendly services). In this context, we would also like to point out the information on the use of cookies in this privacy policy.

- **Processed data types:** Usage data (e.g. page views and duration of visit, click paths, intensity and frequency of use, types of devices and operating systems used, interactions with content and features). Meta, communication and process data (e.g. IP addresses, timestamps, identification numbers, involved parties).
- **Data subjects:** Users (e.g. website visitors, users of online services).
- **Purposes of processing:** Remarketing; Affiliate Tracking; Web Analytics (e.g. access statistics, recognition of returning visitors); Profiles with user-related information (Creating user profiles); Provision of our online services and usability; Targeting (e.g. profiling based on interests and behaviour, use of cookies); Conversion tracking (Measurement of the effectiveness of marketing activities); Clicktracking; A/B Tests. Heatmaps ("Heatmaps" are mouse movements of the users, which are combined to an overall picture.).
- **Retention and deletion:** Deletion in accordance with the information provided in the section "General Information on Data Retention and Deletion". Storage of cookies for up to 2 years (Unless otherwise stated, cookies and similar storage methods may be stored on users' devices for a period of two years.).
- **Security measures:** IP Masking (Pseudonymization of the IP address).

- **Legal Basis:** Consent (Article 6 (1) (a) GDPR). Legitimate Interests (Article 6 (1) (f) GDPR).

Further information on processing methods, procedures and services used:

- **etracker:** Web Analytics; **Service provider:** etracker GmbH, Erste Brunnenstraße 1 20459 Hamburg, Germany; **Legal Basis:** Consent (Article 6 (1) (a) GDPR); **Website:** <https://www.etracker.com>; **Privacy Policy:** <https://www.etracker.com/datenschutz/>; **Data Processing Agreement:** <https://www.etracker.com/av-vertrag/>. **Basis for third-country transfers:** Switzerland - Adequacy decision (Germany).
- **Google Analytics:** We use Google Analytics to perform measurement and analysis of the use of our online services by users based on a pseudonymous user identification number. This identification number does not contain any unique data, such as names or email addresses. It is used to assign analysis information to an end device in order to recognize which content users have accessed within one or various usage processes, which search terms they have used, have accessed again or have interacted with our online services. Likewise, the time of use and its duration are stored, as well as the sources of users referring to our online services and technical aspects of their end devices and browsers.
In the process, pseudonymous profiles of users are created with information from the use of various devices, and cookies may be used. Google Analytics does not log or store individual IP addresses. Analytics does provide coarse geo-location data by deriving the following metadata from IP addresses: City (and the derived latitude, and longitude of the city), Continent, Country, Region, Subcontinent (and ID-based counterparts). For EU-based traffic, IP-address data is used solely for geo-location data derivation before being immediately discarded. It is not logged, accessible, or used for any additional use cases. When Analytics collects measurement data, all IP lookups are performed on EU-based servers before forwarding traffic to Analytics servers for processing; **Service provider:** Google Ireland Limited, Gordon House, Barrow Street, Dublin 4, Ireland; **Legal Basis:** Consent (Article 6 (1) (a) GDPR); **Website:** <https://marketingplatform.google.com/intl/en/about/analytics/>; **Security measures:** IP Masking (Pseudonymization of the IP address); **Privacy Policy:** <https://policies.google.com/privacy>; **Data Processing Agreement:** <https://business.safety.google/adsprocessorterms/>; **Basis for third-country transfers:** EEA - Data Privacy Framework (DPF), Switzerland - Adequacy decision (Ireland); **Opt-Out:** Opt-Out-Plugin: <https://tools.google.com/dlpage/gaoptout?hl=en>, Settings for the Display of Advertisements: <https://myadcenter.google.com/personalizationoff>. **Further Information:** <https://business.safety.google/adsservices/> (Types of processing and data processed).

- **Google as a recipient of consent:** The consent given by users in the context of a consent dialogue (also known as "Cookie Opt-In/Consent", "Cookie Banner", etc.) serves multiple purposes. Firstly, it helps us to fulfil our obligation to obtain consent for the storage and reading of information on and from the end-user's device (in accordance with ePrivacy Directives). Secondly, it covers the processing of users' personal data in accordance with data protection requirements. Additionally, this consent is also applicable to Google, as the company is required by the Digital Markets Act to obtain consent for personalised services. Therefore, we share the status of consents given by users with Google. Our consent management software informs Google about whether consents have been given or not. The aim is to ensure that user consents—or their absence—are taken into account when using Google Analytics and integrating features and external services. Thus, user consents and their revocation can be dynamically adjusted within our online offerings through Google Analytics and other Google services, depending on user selection; **Service provider:** Google Ireland Limited, Gordon House, Barrow Street, Dublin 4, Ireland; **Legal Basis:** Consent (Article 6 (1) (a) GDPR); **Website:** <https://support.google.com/analytics/answer/9976101?hl=en>; **Privacy Policy:** <https://policies.google.com/privacy>. **Basis for third-country transfers:** Switzerland - Adequacy decision (Ireland).
- **Google Analytics Audiences:** We use Google Analytics to specifically present ads, placed through Google's advertising services and those of its partners, to users who have already shown interest in our online offering or exhibit certain characteristics (e.g., interests in specific topics or products determined based on the websites they have visited). We transmit this data to Google as part of what is known as "Remarketing" or "Google Analytics Audiences". The purpose of using Remarketing Audiences is to ensure that our ads align as closely as possible with the potential interests of the users; **Service provider:** Google Ireland Limited, Gordon House, Barrow Street, Dublin 4, Ireland; **Legal Basis:** Consent (Article 6 (1) (a) GDPR); **Website:** <https://marketingplatform.google.com/>; **Legal Basis:** <https://business.safety.google/adsprocessorterms/>; **Privacy Policy:** <https://policies.google.com/privacy>; **Data Processing Agreement:** <https://business.safety.google/adsprocessorterms/>; **Basis for third-country transfers:** EEA - Data Privacy Framework (DPF), Switzerland - Adequacy decision (Ireland); **Further Information:** Types of processing and data processed: <https://business.safety.google/adsservices/>. Data Processing Conditions for Google Advertising Products and standard contractual clauses for data transfers to third countries: <https://business.safety.google/adsprocessorterms> .
- **Google Tag Manager:** We use Google Tag Manager, a software provided by Google, which enables us to manage so-called website tags centrally via a user interface. Tags are small code elements on our website that serve to

record and analyse visitor activities. This technology assists us in improving our website and the content offered on it. Google Tag Manager itself does not create user profiles, store cookies with user profiles, or perform any independent analyses. Its function is limited to simplifying and making the integration and management of tools and services we use on our website more efficient. Nevertheless, when using Google Tag Manager, users' IP addresses are transmitted to Google, which is technically necessary to implement the services we use. Cookies may also be set in this process. However, this data processing only occurs if services are integrated via the Tag Manager. For more detailed information about these services and their data processing, please refer to the further sections of this privacy policy; **Service provider:** Google Ireland Limited, Gordon House, Barrow Street, Dublin 4, Ireland; **Legal Basis:** Consent (Article 6 (1) (a) GDPR); **Website:** <https://marketingplatform.google.com>; **Privacy Policy:** <https://policies.google.com/privacy>; **Data Processing Agreement:** <https://business.safety.google/adsprocessorterms>. **Basis for third-country transfers:** EEA - Data Privacy Framework (DPF), Switzerland - Adequacy decision (Ireland).

- **Google Analytics:** We use Google Analytics to perform measurement and analysis of the use of our online services by users based on a pseudonymous user identification number. This identification number does not contain any unique data, such as names or email addresses. It is used to assign analysis information to an end device in order to recognize which content users have accessed within one or various usage processes, which search terms they have used, have accessed again or have interacted with our online services. Likewise, the time of use and its duration are stored, as well as the sources of users referring to our online services and technical aspects of their end devices and browsers. In the process, pseudonymous profiles of users are created with information from the use of various devices, and cookies may be used. Google Analytics does not log or store individual IP addresses. Analytics does provide coarse geo-location data by deriving the following metadata from IP addresses: City (and the derived latitude, and longitude of the city), Continent, Country, Region, Subcontinent (and ID-based counterparts). For EU-based traffic, IP-address data is used solely for geo-location data derivation before being immediately discarded. It is not logged, accessible, or used for any additional use cases. When Analytics collects measurement data, all IP lookups are performed on EU-based servers before forwarding traffic to Analytics servers for processing; **Service provider:** Google Ireland Limited, Gordon House, Barrow Street, Dublin 4, Ireland; **Legal Basis:** Consent (Article 6 (1) (a) GDPR); **Website:** <https://marketingplatform.google.com/intl/en/about/analytics/>; **Privacy Policy:** <https://policies.google.com/privacy>; **Data Processing Agreement:** <https://business.safety.google/adsprocessorterms/>; **Basis for third-country transfers:** EEA - Data Privacy Framework (DPF), Switzerland - Adequacy decision (Ireland); **Opt-Out:** Opt-Out-Plugin:

- **Clarity:** Software for the analysis and optimisation of online services on the basis of feedback functions as well as pseudonymously conducted measurements and analyses of user behaviour, which may include in particular A/B tests (measurement of the preference and user-friendliness of different contents and functions), measurement of click paths and other interactions with contents and functions of the online services; **Service provider:** Microsoft Ireland Operations Limited, One Microsoft Place, South County Business Park, Leopardstown, Dublin 18, D18 P521, Ireland; **Legal Basis:** Consent (Article 6 (1) (a) GDPR); **Website:** <https://clarity.microsoft.com/>; **Privacy Policy:** <https://privacy.microsoft.com/en-GB/privacystatement>, Security information: <https://www.microsoft.com/en-GB/trust-center>. **Basis for third-country transfers:** EEA - Data Privacy Framework (DPF), Switzerland - Adequacy decision (Ireland).

Online Marketing

We process personal data for the purposes of online marketing, which may include in particular the marketing of advertising space or the display of advertising and other content (collectively referred to as "Content") based on the potential interests of users and the measurement of their effectiveness.

For these purposes, so-called user profiles are created and stored in a file (so-called "cookie") or similar procedure is used by which the relevant user information for the display of the aforementioned content is stored. This information may include, for example, content viewed, websites visited, online networks used, communication partners and technical information such as the browser used, computer system used and information on usage times and used functions. If users have consented to the collection of their sideline data, these can also be processed.

The IP addresses of the users are also stored. However, we use provided IP masking procedures (i.e. pseudonymisation by shortening the IP address) to ensure the protection of the user's by using a pseudonym. In general, within the framework of the online marketing process, no clear user data (such as e-mail addresses or names) is secured, but pseudonyms. This means that we, as well as the providers of online marketing procedures, do not know the actual identity of the users, but only the information stored in their profiles.

The information in the profiles is usually stored in the cookies or similar memorizing procedures. These cookies can later, generally also on other websites

that use the same online marketing technology, be read and analyzed for purposes of content display, as well as supplemented with other data and stored on the server of the online marketing technology provider.

Exceptionally, clear data can be assigned to the profiles. This is the case, for example, if the users are members of a social network whose online marketing technology we use and the network links the profiles of the users in the aforementioned data. Please note that users may enter into additional agreements with the social network providers or other service providers, e.g. by consenting as part of a registration process.

As a matter of principle, we only gain access to summarised information about the performance of our advertisements. However, within the framework of so-called conversion measurement, we can check which of our online marketing processes have led to a so-called conversion, i.e. to the conclusion of a contract with us. The conversion measurement is used alone for the performance analysis of our marketing activities.

Unless otherwise stated, we kindly ask you to consider that cookies used will be stored for a period of two years.

Notes on revocation and objection:

We refer to the privacy policies of the respective service providers and the possibilities for objection (so-called "opt-out"). If no explicit opt-out option has been specified, it is possible to deactivate cookies in the settings of your browser. However, this may restrict the functions of our online offer. We therefore recommend the following additional opt-out options, which are offered collectively for each area:

- a) Europe: <https://www.youronlinechoices.eu>.
- b) Canada: <https://www.youradchoices.ca/choices>.
- c) USA: <https://www.aboutads.info/choices>.
- d) Cross-regional: <https://optout.aboutads.info>.

- **Processed data types:** Usage data (e.g. page views and duration of visit, click paths, intensity and frequency of use, types of devices and operating systems used, interactions with content and features). Meta, communication and process data (e.g. IP addresses, timestamps, identification numbers, involved parties).
- **Data subjects:** Users (e.g. website visitors, users of online services). Service recipients and clients.

- **Purposes of processing:** Web Analytics (e.g. access statistics, recognition of returning visitors); Targeting (e.g. profiling based on interests and behaviour, use of cookies); Affiliate Tracking; Marketing; Profiles with user-related information (Creating user profiles); Conversion tracking (Measurement of the effectiveness of marketing activities); Provision of our online services and usability. A/B Tests.
- **Retention and deletion:** Deletion in accordance with the information provided in the section "General Information on Data Retention and Deletion". Storage of cookies for up to 2 years (Unless otherwise stated, cookies and similar storage methods may be stored on users' devices for a period of two years.).
- **Security measures:** IP Masking (Pseudonymization of the IP address).
- **Legal Basis:** Consent (Article 6 (1) (a) GDPR). Legitimate Interests (Article 6 (1) (f) GDPR).

Further information on processing methods, procedures and services used:

- **Google Ad Manager:** We use the service "Google Ad Manager" to place ads in the Google advertising network (e.g. in search results, videos, websites, etc.). The Google Ad Manager stands out because ads are displayed in real time based on users' presumed interests. This allows us to display ads for our online offering to users who may have a potential interest in our offering or who have previously shown interest, and measure the success of the ads;
Service provider: Google Ireland Limited, Gordon House, Barrow Street, Dublin 4, Ireland; **Legal Basis:** Legitimate Interests (Article 6 (1) (f) GDPR); **Website:** <https://marketingplatform.google.com>; **Privacy Policy:** <https://policies.google.com/privacy>; **Basis for third-country transfers:** EEA - Data Privacy Framework (DPF), Switzerland - Adequacy decision (Ireland); **Further Information:** Types of processing and data processed: <https://business.safety.google/adsservices/>; Google Ads Controller-Controller Data Protection Terms and standard contractual clauses for data transfers to third countries: <https://business.safety.google/adscontrollerterms>, where Google acts as processor, Data Processing Conditions for Google Advertising Products and standard contractual clauses for data transfers to third countries: <https://business.safety.google/adsprocessorterms> apply.
- **Google Ads and Conversion Tracking:** Online marketing process for purposes of placing content and advertisements within the provider's advertising network (e.g., in search results, in videos, on web pages, etc.) so that they are displayed to users who have a presumed interest in the ads. Furthermore, we measure the conversion of the ads, i.e. whether the users took them as a reason to interact with the ads and make use of the advertised offers (so-called conversion). However, we only receive anonymous information and no personal information about individual users; **Service provider:** Google Ireland Limited, Gordon House, Barrow Street, Dublin 4,

Ireland; **Legal Basis:** Consent (Article 6 (1) (a) GDPR), Legitimate Interests (Article 6 (1) (f) GDPR); **Website:** <https://marketingplatform.google.com>; **Privacy Policy:** <https://policies.google.com/privacy>; **Basis for third-country transfers:** EEA - Data Privacy Framework (DPF), Switzerland - Adequacy decision (Ireland); **Further Information:** Types of processing and data processed: <https://business.safety.google/adsservices/>. Google Ads Controller-Controller Data Protection Terms and standard contractual clauses for data transfers to third countries: <https://business.safety.google/adscontrollerterms>.

- **Enhanced Conversions for Google Ads:** When users click on our Google ads and subsequently use the advertised service (so-called "conversion"), the data entered by the user, such as email address, name, residential address or telephone number, may be transmitted to Google. The hash values are then matched with existing Google accounts of the users to better evaluate and improve their interaction with the ads (e.g., clicks or views) and thus their performance; **Legal Basis:** Consent (Article 6 (1) (a) GDPR). **Website:** <https://support.google.com/google-ads/answer/9888656>.
- **Microsoft Advertising:** Online marketing process for purposes of placing content and advertisements within the provider's advertising network (e.g., in search results, in videos, on web pages, etc.) so that they are displayed to users who have a presumed interest in the ads. Furthermore, we measure the conversion of the ads, i.e. whether the users took them as a reason to interact with the ads and make use of the advertised offers (so-called conversion). However, we only receive anonymous information and no personal information about individual users; **Service provider:** Microsoft Ireland Operations Limited, One Microsoft Place, South County Business Park, Leopardstown, Dublin 18, D18 P521, Ireland; **Legal Basis:** Consent (Article 6 (1) (a) GDPR), Legitimate Interests (Article 6 (1) (f) GDPR); **Website:** <https://about.ads.microsoft.com/de-de>; **Privacy Policy:** <https://privacy.microsoft.com/en-us/privacystatement>; **Basis for third-country transfers:** EEA - Data Privacy Framework (DPF), Switzerland - Adequacy decision (Ireland). **Opt-Out:** <https://account.microsoft.com/privacy/ad-settings/>.
- **Google Tag Manager:** We utilise the Google Tag Manager, a tool by Google, to manage website tags via a central user interface. Tags are small code elements on our website that serve, among other things, to measure and analyse visitor activities. This technology assists us in improving our website and the services offered on it. The Google Tag Manager itself does not create user profiles, store cookies, or perform any independent analyses. It is solely used to integrate the tools and services we use for our website more simply and efficiently. However, when using the Google Tag Manager, users' IP addresses are transmitted to Google, which is technically necessary to execute the various services we utilise. It is important to note that this data processing only occurs when services are integrated through the Tag Manager that require it. For details on these services and how they process

data, we refer you to the subsequent sections of this privacy policy; **Service provider:** Google Ireland Limited, Gordon House, Barrow Street, Dublin 4, Ireland; **Legal Basis:** Consent (Article 6 (1) (a) GDPR); **Website:** <https://marketingplatform.google.com/>; **Privacy Policy:** <https://policies.google.com/privacy>; **Data Processing Agreement:** <https://business.safety.google/adsprocessorterms/>; **Basis for third-country transfers:** EEA - Data Privacy Framework (DPF), Switzerland - Adequacy decision (Ireland). **Further Information:** <https://business.safety.google/adsservices/> (Types of processing and data processed).

- **Google Analytics:** Web AnalyticsWe use Google Analytics to perform measurement and analysis of the use of our online services by users based on a pseudonymous user identification number. This identification number does not contain any unique data, such as names or email addresses. It is used to assign analysis information to an end device in order to recognize which content users have accessed within one or various usage processes, which search terms they have used, have accessed again or have interacted with our online services. Likewise, the time of use and its duration are stored, as well as the sources of users referring to our online services and technical aspects of their end devices and browsers. In the process, pseudonymous profiles of users are created with information from the use of various devices, and cookies may be used. Google Analytics does not log or store individual IP addresses. Analytics does provide coarse geo-location data by deriving the following metadata from IP addresses: City (and the derived latitude, and longitude of the city), Continent, Country, Region, Subcontinent (and ID-based counterparts). For EU-based traffic, IP-address data is used solely for geo-location data derivation before being immediately discarded. It is not logged, accessible, or used for any additional use cases. When Analytics collects measurement data, all IP lookups are performed on EU-based servers before forwarding traffic to Analytics servers for processing; **Service provider:** Google Ireland Limited, Gordon House, Barrow Street, Dublin 4, Ireland; **Legal Basis:** Consent (Article 6 (1) (a) GDPR); **Website:** <https://marketingplatform.google.com/intl/en/about/analytics/>; **Privacy Policy:** <https://policies.google.com/privacy>; **Data Processing Agreement:** <https://business.safety.google/adsprocessorterms/>; **Basis for third-country transfers:** EEA - Data Privacy Framework (DPF), Switzerland - Adequacy decision (Ireland); **Opt-Out:** Opt-Out-Plugin: <https://tools.google.com/dlpage/gaoptout?hl=en>, Settings for the Display of Advertisements: <https://myadcenter.google.com/personalizationoff>. **Further Information:** <https://business.safety.google/adsservices/> (Types of processing and data processed).

Customer Reviews and Ratings

We participate in review and rating procedures to evaluate, optimise and advertise our performance. If users rate us via the participating rating platforms or methods or otherwise provide feedback, the General Terms and Conditions of Business or Use and the data protection information of the providers also apply. As a rule, the rating also requires registration with the respective provider.

In order to ensure that the evaluators have actually made use of our services, we transmit, with the consent of the customer, the necessary data relating to the customer and the service or products used to the respective rating platform (this includes the name, e-mail address, order number or article number). This data is used solely to verify the authenticity of the user.

- **Processed data types:** Contract data (e.g. contract object, duration, customer category); Usage data (e.g. page views and duration of visit, click paths, intensity and frequency of use, types of devices and operating systems used, interactions with content and features); Meta, communication and process data (e.g. IP addresses, timestamps, identification numbers, involved parties). Content data (e.g. textual or pictorial messages and contributions, as well as information pertaining to them, such as details of authorship or the time of creation.).
- **Data subjects:** Service recipients and clients. Users (e.g. website visitors, users of online services).
- **Purposes of processing:** Feedback (e.g. collecting feedback via online form). Marketing.
- **Legal Basis:** Legitimate Interests (Article 6 (1) (f) GDPR).

Further information on processing methods, procedures and services used:

- **Rating Widget:** We include so-called " rating widgets " in our online services. A widget is a functional and content element integrated within our online services that displays variable information (e.g. a widget can be displayed in the form of a seal or a badge). Although the corresponding content of the widget is displayed within our online services, it is retrieved from the servers of the respective widget provider at this moment. This is the only way to always show the current content, especially the current rating. For this purpose, a data connection must be established from the website accessed within our online service to the widget provider's server and the widget provider receives certain technical data (access data, including the IP address) that is necessary for the content of the widget to be delivered to the user's browser.
In addition, the widget provider receives information that users have visited

our online services. This information may be stored in a cookie and used by the widget provider to identify which online offerings participating in the rating process have been visited by the user. The information can be stored in a user profile and used for advertising or market research purposes; **Legal Basis:** Legitimate Interests (Article 6 (1) (f) GDPR).

- **Trustindex:** Review and rating platform; **Service provider:** Trustindex Informatikai Kft., Kárpát utca 37, 1133 Budapest, Hungary; **Legal Basis:** Legitimate Interests (Article 6 (1) (f) GDPR); **Website:** <https://www.trustindex.io/>; **Privacy Policy:** <https://www.trustindex.io/terms-and-conditions-and-privacy-policy/>. **Basis for third-country transfers:** Switzerland - Adequacy decision (Hungary).

Digital Badges

Digital badges, also known as Open Badges (hereafter referred to as "badges"), are digital certificates that confirm the skills, achievements, and interests of individuals or organisations. They are issued by credible organisations. These badges come with metadata and information about the acquired skills and achievements. Typically, badges are represented by an image or a digital certificate which provides details about the recipient, issuer, the metadata, and other relevant information.

When badges are individually issued for specific individuals, the metadata stored within the badges pertaining to skills, achievements, and interests of those individuals is processed.

If, within the context of the badges, non-essential cookies and similar technologies are used, and therefore or otherwise user consent is required, we obtain the appropriate consent from the users and inform them accordingly.

- **Processed data types:** Inventory data (For example, the full name, residential address, contact information, customer number, etc.); Content data (e.g. textual or pictorial messages and contributions, as well as information pertaining to them, such as details of authorship or the time of creation.); Usage data (e.g. page views and duration of visit, click paths, intensity and frequency of use, types of devices and operating systems used, interactions with content and features). Meta, communication and process data (e.g. IP addresses, timestamps, identification numbers, involved parties).
- **Data subjects:** Service recipients and clients; Users (e.g. website visitors, users of online services). Business and contractual partners.
- **Purposes of processing:** Marketing; Provision of our online services and usability; Public relations and informational purposes. Feedback (e.g.

collecting feedback via online form).

- **Retention and deletion:** Deletion in accordance with the information provided in the section "General Information on Data Retention and Deletion". Deletion after termination.
- **Legal Basis:** Consent (Article 6 (1) (a) GDPR). Legitimate Interests (Article 6 (1) (f) GDPR).

Further information on processing methods, procedures and services used:

- **Trustindex:** Review and rating platform; **Service provider:** Trustindex Informatikai Kft., Kárpát utca 37, 1133 Budapest, Hungary; **Legal Basis:** Legitimate Interests (Article 6 (1) (f) GDPR); **Website:** <https://www.trustindex.io/>; **Privacy Policy:** <https://www.trustindex.io/terms-and-conditions-and-privacy-policy/>. **Basis for third-country transfers:** Switzerland - Adequacy decision (Hungary).

Profiles in Social Networks (Social Media)

We maintain online presences within social networks and process user data in this context in order to communicate with the users active there or to offer information about us.

We would like to point out that user data may be processed outside the European Union. This may entail risks for users, e.g. by making it more difficult to enforce users' rights.

In addition, user data is usually processed within social networks for market research and advertising purposes. For example, user profiles can be created on the basis of user behaviour and the associated interests of users. The user profiles can then be used, for example, to place advertisements within and outside the networks which are presumed to correspond to the interests of the users. For these purposes, cookies are usually stored on the user's computer, in which the user's usage behaviour and interests are stored. Furthermore, data can be stored in the user profiles independently of the devices used by the users (especially if the users are members of the respective networks or will become members later on).

For a detailed description of the respective processing operations and the opt-out options, please refer to the respective data protection declarations and information provided by the providers of the respective networks.

Also in the case of requests for information and the exercise of rights of data subjects, we point out that these can be most effectively pursued with the providers. Only the providers have access to the data of the users and can directly take appropriate measures and provide information. If you still need help, please do

not hesitate to contact us.

- **Processed data types:** Contact data (e.g. postal and email addresses or phone numbers); Content data (e.g. textual or pictorial messages and contributions, as well as information pertaining to them, such as details of authorship or the time of creation.). Usage data (e.g. page views and duration of visit, click paths, intensity and frequency of use, types of devices and operating systems used, interactions with content and features).
- **Data subjects:** Users (e.g. website visitors, users of online services).
- **Purposes of processing:** Communication; Feedback (e.g. collecting feedback via online form). Public relations.
- **Retention and deletion:** Deletion in accordance with the information provided in the section "General Information on Data Retention and Deletion".
- **Legal Basis:** Legitimate Interests (Article 6 (1) (f) GDPR).

Further information on processing methods, procedures and services used:

- **Instagram:** Social network, allows the sharing of photos and videos, commenting on and favouriting posts, messaging, subscribing to profiles and pages; **Service provider:** Meta Platforms Ireland Limited, Merrion Road, Dublin 4, D04 X2K5, Ireland; **Legal Basis:** Legitimate Interests (Article 6 (1) (f) GDPR); **Website:** <https://www.instagram.com>; **Privacy Policy:** <https://privacycenter.instagram.com/policy/>. **Basis for third-country transfers:** EEA - Data Privacy Framework (DPF), Switzerland - Adequacy decision (Ireland).
- **Facebook Pages:** Profiles within the social network Facebook - We are jointly responsible (so called "joint controller") with Meta Platforms Ireland Limited for the collection (but not the further processing) of data of visitors to our Facebook page. This data includes information about the types of content users view or interact with, or the actions they take (see "Things that you and others do and provide" in the Facebook Data Policy: <https://www.facebook.com/privacy/policy/>), and information about the devices used by users (e.g., IP addresses, operating system, browser type, language settings, cookie information; see "Device Information" in the Facebook Data Policy: <https://www.facebook.com/privacy/policy/>). As explained in the Facebook Data Policy under "How we use this information?" Facebook also collects and uses information to provide analytics services, known as "page insights," to site operators to help them understand how people interact with their pages and with content associated with them. We have concluded a special agreement with Facebook ("Information about Page-Insights", https://www.facebook.com/legal/terms/page_controller_addendum), which regulates in particular the security measures that Facebook must observe and in which Facebook has agreed to fulfill the rights of the persons concerned

(i.e. users can send information access or deletion requests directly to Facebook). The rights of users (in particular to access to information, erasure, objection and complaint to the competent supervisory authority) are not restricted by the agreements with Facebook. Further information can be found in the "Information about Page Insights"

(https://www.facebook.com/legal/terms/information_about_page_insights_data). The joint controllership is limited to the collection and transfer of the data to Meta Platforms Ireland Limited, a company located in the EU. Further processing of the data is the sole responsibility of Meta Platforms Ireland Limited; **Service provider:** Meta Platforms Ireland Limited, Merrion Road, Dublin 4, D04 X2K5, Ireland; **Legal Basis:** Legitimate Interests (Article 6 (1) (f) GDPR); **Website:** <https://www.facebook.com>; **Privacy Policy:** <https://www.facebook.com/privacy/policy/>. **Basis for third-country transfers:** EEA - Data Privacy Framework (DPF), Switzerland - Adequacy decision (Ireland).

- **Facebook-Groups:** We use the "Groups" function of the Facebook platform to create interest groups within which Facebook users can contact each other or us and exchange information. In doing so, we process personal data of the users of our groups as far as this is necessary for the purpose of the group use as well as its moderation. These data include information on first and last names, as well as published or privately shared content, as well as values on the status of group membership or group-related activities, such as entry or exit, as well as the time information on the aforementioned data. Our guidelines within the groups may contain further specifications and information on the use of the respective group. Furthermore, we would like to point out the processing of data of the users by Facebook itself. This data includes information about the types of content users view or interact with, or the actions they take (see under "Things You and Others Do and Provide" in the Facebook Data Policy: <https://www.facebook.com/privacy/policy/>), as well as information about the devices users use (e.g., IP addresses, operating system, browser type, language settings, cookie data; see under "Device Information" in the Facebook Data Policy: <https://www.facebook.com/privacy/policy/>). As explained in the Facebook Data Policy under "How do we use this information?", Facebook also collects and uses information to provide analytics services, called "Insights," to group operators to provide them with insights about how people interact with their groups and with content associated with them; **Service provider:** Meta Platforms Ireland Limited, Merrion Road, Dublin 4, D04 X2K5, Ireland; **Legal Basis:** Legitimate Interests (Article 6 (1) (f) GDPR); **Website:** <https://www.facebook.com>; **Privacy Policy:** <https://www.facebook.com/privacy/policy/>. **Basis for third-country transfers:** EEA - Data Privacy Framework (DPF), Switzerland - Adequacy decision (Ireland).
- **LinkedIn:** Social network - We are jointly responsible with LinkedIn Ireland

Unlimited Company for the collection (but not the further processing) of visitor data, which is used to create "Page Insights" (statistics) for our LinkedIn profiles. This data includes information about the types of content users view or interact with, as well as the actions they take. It also includes details about the devices used, such as IP addresses, operating systems, browser types, language settings, and cookie data, as well as profile details of users, such as job function, country, industry, seniority, company size, and employment status. Privacy information regarding the processing of user data by LinkedIn can be found in LinkedIn's privacy policy:

<https://www.linkedin.com/legal/privacy-policy>.

We have entered into a special agreement with LinkedIn Ireland ("Page Insights Joint Controller Addendum,"

<https://legal.linkedin.com/pages-joint-controller-addendum>), which specifically regulates the security measures LinkedIn must comply with and in which LinkedIn has agreed to fulfill the rights of data subjects (i.e., users can, for example, direct requests for information or deletion directly to LinkedIn). The rights of users (particularly the right to information, deletion, objection, and to lodge a complaint with the competent supervisory authority) are not restricted by our agreements with LinkedIn. The joint responsibility is limited to the collection of data and its transmission to LinkedIn Ireland Unlimited Company, a company based in the EU. Further processing of the data is the sole responsibility of LinkedIn Ireland Unlimited Company, particularly concerning the transfer of data to the parent company LinkedIn Corporation in the USA; **Service provider:** LinkedIn Ireland Unlimited Company, Wilton Place, Dublin 2, Ireland; **Legal Basis:** Legitimate Interests (Article 6 (1) (f) GDPR); **Website:** <https://www.linkedin.com>; **Privacy Policy:** <https://www.linkedin.com/legal/privacy-policy>; **Basis for third-country transfers:** EEA - Data Privacy Framework (DPF), Switzerland - Adequacy decision (Ireland). **Opt-Out:**

<https://www.linkedin.com/psettings/guest-controls/retargeting-opt-out>.

- **Xing:** Social network; **Service provider:** New Work SE, Am Strandkai 1, 20457 Hamburg, Germany; **Legal Basis:** Legitimate Interests (Article 6 (1) (f) GDPR); **Website:** <https://www.xing.com>; **Privacy Policy:** <https://privacy.xing.com/en>. **Basis for third-country transfers:** Switzerland - Adequacy decision (Germany).

Plugins and embedded functions and content

Within our online services, we integrate functional and content elements that are obtained from the servers of their respective providers (hereinafter referred to as "third-party providers"). These may, for example, be graphics, videos or city maps (hereinafter uniformly referred to as "Content").

The integration always presupposes that the third-party providers of this content process the IP address of the user, since they could not send the content to their browser without the IP address. The IP address is therefore required for the presentation of these contents or functions. We strive to use only those contents, whose respective offerers use the IP address only for the distribution of the contents. Third parties may also use so-called pixel tags (invisible graphics, also known as "web beacons") for statistical or marketing purposes. The "pixel tags" can be used to evaluate information such as visitor traffic on the pages of this website. The pseudonymous information may also be stored in cookies on the user's device and may include technical information about the browser and operating system, referring websites, visit times and other information about the use of our website, as well as may be linked to such information from other sources.

- **Processed data types:** Usage data (e.g. page views and duration of visit, click paths, intensity and frequency of use, types of devices and operating systems used, interactions with content and features). Meta, communication and process data (e.g. IP addresses, timestamps, identification numbers, involved parties).
- **Data subjects:** Users (e.g. website visitors, users of online services).
- **Purposes of processing:** Provision of our online services and usability.
- **Retention and deletion:** Deletion in accordance with the information provided in the section "General Information on Data Retention and Deletion". Storage of cookies for up to 2 years (Unless otherwise stated, cookies and similar storage methods may be stored on users' devices for a period of two years.).
- **Legal Basis:** Consent (Article 6 (1) (a) GDPR). Legitimate Interests (Article 6 (1) (f) GDPR).

Management, Organization and Utilities

We use services, platforms and software from other providers (hereinafter referred to as "third-party providers") for the purposes of organizing, administering, planning and providing our services. When selecting third-party providers and their services, we comply with the legal requirements.

Within this context, personal data may be processed and stored on the servers of third-party providers. This may include various data that we process in accordance with this privacy policy. This data may include in particular master data and contact data of users, data on processes, contracts, other processes and their contents.

If users are referred to the third-party providers or their software or platforms in the context of communication, business or other relationships with us, the third-

party provider processing may process usage data and metadata that can be processed by them for security purposes, service optimisation or marketing purposes. We therefore ask you to read the data protection notices of the respective third party providers.

- **Processed data types:** Content data (e.g. textual or pictorial messages and contributions, as well as information pertaining to them, such as details of authorship or the time of creation.); Usage data (e.g. page views and duration of visit, click paths, intensity and frequency of use, types of devices and operating systems used, interactions with content and features). Meta, communication and process data (e.g. IP addresses, timestamps, identification numbers, involved parties).
- **Data subjects:** Communication partner (Recipients of e-mails, letters, etc.). Users (e.g. website visitors, users of online services).
- **Purposes of processing:** Provision of contractual services and fulfillment of contractual obligations. Office and organisational procedures.
- **Retention and deletion:** Deletion in accordance with the information provided in the section "General Information on Data Retention and Deletion".
- **Legal Basis:** Legitimate Interests (Article 6 (1) (f) GDPR).

Processing of data in the context of employment relationships

In the context of employment relationships, the processing of personal data aims to effectively manage the establishment, execution, and termination of such relationships. This data processing supports various operational and administrative functions necessary for managing employee relations.

The data processing covers various aspects ranging from contract initiation to termination. Included are the organization and management of daily working hours, management of access rights and permissions, as well as handling personnel development measures and staff appraisals. The processing also serves payroll accounting and management of wage and salary payments, which represent critical aspects of contract execution.

Additionally, the data processing considers legitimate interests of the responsible employer, such as ensuring workplace safety or capturing performance data for evaluating and optimizing operational processes. Moreover, the data processing includes disclosing employee data in external communication and publication processes where necessary for operational or legal purposes.

The processing of this data always takes place with due regard for the applicable

legal frameworks, aiming always to create and maintain a fair and efficient working environment. This also includes considering the privacy of affected employees, anonymizing or deleting data after fulfilling the processing purpose or according to legal retention periods.

- **Processed data types:** Employee Data (Information about employees and other individuals in an employment relationship).
- **Data subjects:** Employees (e.g. employees, job applicants, temporary workers, and other personnel.).
- **Purposes of processing:** Establishment and execution of employment relationships (Processing of employee data in the context of the establishment and execution of employment relationships). Business processes and management procedures.
- **Legal Basis:** Performance of a contract and prior requests (Article 6 (1) (b) GDPR); Compliance with a legal obligation (Article 6 (1) (c) GDPR); Legitimate Interests (Article 6 (1) (f) GDPR). Healthcare, occupational and social security processing of special categories of personal data (Article 9 (2)(h) GDPR).

Job Application Process

The application process requires applicants to provide us with the data necessary for their assessment and selection. The information required can be found in the job description or, in the case of online forms, in the information contained therein.

In principle, the required information includes personal information such as name, address, a contact option and proof of the qualifications required for a particular employment. Upon request, we will be happy to provide you with additional information.

Where available, applicants are welcome to submit their applications via our online form, which is securely encrypted to the latest standards. Alternatively, applications can also be sent to us by email. However, we kindly remind you that emails are not inherently encrypted over the Internet. While emails are usually encrypted in transit, they are not encrypted on the servers from which they are sent and received. Therefore, we cannot assume responsibility for the security of the application during its transmission from the sender to our server.

Processing of special categories of data: To the extent that special categories of personal data (Article 9(1) GDPR, e.g., health data, such as disability status or ethnic origin) are requested from applicants or communicated by them during the application process, their processing is carried out so that the controller or the data subject can exercise rights arising from employment law and the law of social

security and social protection, in the case of protection of vital interests of the applicants or other persons, or for purposes of preventive or occupational medicine, for the assessment of the employee's work ability, for medical diagnosis, for the provision or treatment in the health or social sector, or for the management of systems and services in the health or social sector.

Ereasure of data: In the event of a successful application, the data provided by the applicants may be further processed by us for the purposes of the employment relationship. Otherwise, if the application for a job offer is not successful, the applicant's data will be deleted. Applicants' data will also be deleted if an application is withdrawn, to which applicants are entitled at any time. Subject to a justified revocation by the applicant, the deletion will take place at the latest after the expiry of a period of six months, so that we can answer any follow-up questions regarding the application and comply with our duty of proof under the regulations on equal treatment of applicants. Invoices for any reimbursement of travel expenses are archived in accordance with tax regulations.

Admission to a talent pool - Admission to a talent pool, if offered, is based on consent. Applicants are informed that their consent to be included in the talent pool is voluntary, has no influence on the current application process and that they can revoke their consent at any time for the future.

- **Processed data types:** Inventory data (For example, the full name, residential address, contact information, customer number, etc.); Contact data (e.g. postal and email addresses or phone numbers); Content data (e.g. textual or pictorial messages and contributions, as well as information pertaining to them, such as details of authorship or the time of creation.). Job applicant details (e.g. Personal data, postal and contact addresses and the documents pertaining to the application and the information contained therein, such as cover letter, curriculum vitae, certificates, etc., as well as other information on the person or qualifications of applicants provided with regard to a specific job or voluntarily by applicants).
- **Data subjects:** Job applicants.
- **Purposes of processing:** Job Application Process (Establishment and possible later execution as well as possible later termination of the employment relationship).
- **Retention and deletion:** Deletion in accordance with the information provided in the section "General Information on Data Retention and Deletion".
- **Legal Basis:** Job application process as a pre-contractual or contractual relationship (Article 6 (1) (b) GDPR).

Changes and Updates

We kindly ask you to inform yourself regularly about the contents of our data protection declaration. We will adjust the privacy policy as changes in our data processing practices make this necessary. We will inform you as soon as the changes require your cooperation (e.g. consent) or other individual notification.

If we provide addresses and contact information of companies and organizations in this privacy policy, we ask you to note that addresses may change over time and to verify the information before contacting us.

Terminology and Definitions

In this section, you will find an overview of the terminology used in this privacy policy. Where the terminology is legally defined, their legal definitions apply. The following explanations, however, are primarily intended to aid understanding.

- **A/B Tests:** A/B tests are designed to improve the usability and performance of online services. For example, users are presented with different versions of a website or its elements, such as input forms, on which the placement of the contents or labels of the navigation elements can differ. The behaviour of users, e.g. prolonged visits to the site or more frequent interaction with the elements, can then be used to determine which of these sites or elements are more responsive to users' needs.
- **Affiliate Tracking:** Custom Audiences refers to the process of determining target groups for advertising purposes, e.g. the display of advertisements. For example, a user's interest in certain products or topics on the Internet may be used to conclude that the user is interested in advertisements for similar products or the online store in which the user viewed the products. "Lookalike Audiences" is the term used to describe content that is viewed as suitable by users whose profiles or interests presumably correspond to the users for whom the profiles were created. For the purposes of creating custom audiences and lookalike audiences, cookies and web beacons are typically used.
- **Artificial Intelligence (AI):** The purpose of processing data through Artificial Intelligence (AI) includes the automated analysis and processing of user data to identify patterns, make predictions, and improve the efficiency and quality of our services. This involves the collection, cleansing, and structuring of data, training and applying AI models, as well as the continuous review and optimisation of results, and is carried out exclusively with users' consent or based on legal authorisation grounds.

- **Clicktracking:** Clicktracking allows users to keep track of their movements within an entire website. Since the results of these tests are more accurate if the interaction of the users can be followed over a certain period of time (e.g. if a user likes to return), cookies are usually stored on the computers of the users for these test purposes.
- **Contact data:** Contact details are essential information that enables communication with individuals or organizations. They include, among others, phone numbers, postal addresses, and email addresses, as well as means of communication like social media handles and instant messaging identifiers.
- **Content data:** Content data comprise information generated in the process of creating, editing, and publishing content of all types. This category of data may include texts, images, videos, audio files, and other multimedia content published across various platforms and media. Content data are not limited to the content itself but also include metadata providing information about the content, such as tags, descriptions, authorship details, and publication dates.
- **Contract data:** Contract data are specific details pertaining to the formalisation of an agreement between two or more parties. They document the terms under which services or products are provided, exchanged, or sold. This category of data is essential for managing and fulfilling contractual obligations and includes both the identification of the contracting parties and the specific terms and conditions of the agreement. Contract data may encompass the start and end dates of the contract, the nature of the agreed-upon services or products, pricing arrangements, payment terms, termination rights, extension options, and special conditions or clauses. They serve as the legal foundation for the relationship between the parties and are crucial for clarifying rights and duties, enforcing claims, and resolving disputes.
- **Controller:** "Controller" means the natural or legal person, public authority, agency or other body which, alone or jointly with others, determines the purposes and means of the processing of personal data.
- **Conversion tracking:** Conversion tracking is a method used to evaluate the effectiveness of marketing measures. For this purpose, a cookie is usually stored on the devices of the users within the websites on which the marketing measures take place and then called up again on the target website (e.g. we can thus trace whether the advertisements placed by us on other websites were successful).
- **Credit report:** Automated decisions are based on automatic data processing without human intervention (e.g. in the case of an automatic rejection of a purchase on account, an online credit application or an online application procedure without any human intervention). Such automated decisions are only allowed under Article 22 GDPR if data subjects consent, if they are necessary for the performance of a contract or if national laws allow such decisions.

- **Employees:** As employees, individuals are those who are engaged in an employment relationship, whether as staff, employees, or in similar positions. Employment refers to a legal relationship between an employer and an employee, established through an employment contract or agreement. It entails the obligation of the employer to pay the employee remuneration while the employee performs their work. The employment relationship encompasses various stages, including establishment, where the employment contract is concluded, execution, where the employee carries out their work activities, and termination, when the employment relationship ends, whether through termination, mutual agreement, or otherwise. Employee data encompasses all information pertaining to these individuals within the context of their employment. This includes aspects such as personal identification details, identification numbers, salary and banking information, working hours, holiday entitlements, health data, and performance assessments.
- **Heatmaps:** "Heatmaps" are mouse movements of the users, which are combined to an overall picture, with the help of which it can be recognized, for example, which web page elements are preferred and which web page elements users prefer less.
- **Inventory data:** Inventory data encompass essential information required for the identification and management of contractual partners, user accounts, profiles, and similar assignments. These data may include, among others, personal and demographic details such as names, contact information (addresses, phone numbers, email addresses), birth dates, and specific identifiers (user IDs). Inventory data form the foundation for any formal interaction between individuals and services, facilities, or systems, by enabling unique assignment and communication.
- **Log data:** Protocol data, or log data, refer to information regarding events or activities that have been logged within a system or network. These data typically include details such as timestamps, IP addresses, user actions, error messages, and other specifics about the usage or operation of a system. Protocol data is often used for analyzing system issues, monitoring security, or generating performance reports.
- **Meta, communication and process data:** Meta-, communication, and procedural data are categories that contain information about how data is processed, transmitted, and managed. Meta-data, also known as data about data, include information that describes the context, origin, and structure of other data. They can include details about file size, creation date, the author of a document, and modification histories. Communication data capture the exchange of information between users across various channels, such as email traffic, call logs, messages in social networks, and chat histories, including the involved parties, timestamps, and transmission paths. Procedural data describe the processes and operations within systems or organisations, including workflow documentations, logs of transactions and

activities, and audit logs used for tracking and verifying procedures.

- **Payment Data:** Payment data comprise all information necessary for processing payment transactions between buyers and sellers. This data is crucial for e-commerce, online banking, and any other form of financial transaction. It includes details such as credit card numbers, bank account information, payment amounts, transaction dates, verification numbers, and billing information. Payment data may also contain information on payment status, chargebacks, authorizations, and fees.
- **Personal Data:** "personal data" means any information relating to an identified or identifiable natural person ("data subject"); an identifiable natural person is one who can be identified, directly or indirectly, in particular by reference to an identifier such as a name, an identification number, location data, an online identifier or to one or more factors specific to the physical, physiological, genetic, mental, economic, cultural or social identity of that natural person.
- **Processing:** The term "processing" covers a wide range and practically every handling of data, be it collection, evaluation, storage, transmission or erasure.
- **Profiles with user-related information:** The processing of "profiles with user-related information", or "profiles" for short, includes any kind of automated processing of personal data that consists of using these personal data to analyse, evaluate or predict certain personal aspects relating to a natural person (depending on the type of profiling, this may include different information concerning demographics, behaviour and interests, such as interaction with websites and their content, etc.) (e.g. interests in certain content or products, click behaviour on a website or location). Cookies and web beacons are often used for profiling purposes.
- **Remarketing:** Remarketing" or "retargeting" is the term used, for example, to indicate for advertising purposes which products a user is interested in on a website in order to remind the user of these products on other websites, e.g. in advertisements.
- **Targeting:** "Tracking" is the term used when the behaviour of users can be traced across several websites. As a rule, behavior and interest information with regard to the websites used is stored in cookies or on the servers of the tracking technology providers (so-called profiling). This information can then be used, for example, to display advertisements to users presumably corresponding to their interests.
- **Usage data:** Usage data refer to information that captures how users interact with digital products, services, or platforms. These data encompass a wide range of information that demonstrates how users utilise applications, which features they prefer, how long they spend on specific pages, and through what paths they navigate an application. Usage data can also include the frequency of use, timestamps of activities, IP addresses, device information,

and location data. They are particularly valuable for analysing user behaviour, optimising user experiences, personalising content, and improving products or services. Furthermore, usage data play a crucial role in identifying trends, preferences, and potential problem areas within digital offerings

- **Web Analytics:** Web Analytics serves the evaluation of visitor traffic of online services and can determine their behavior or interests in certain information, such as content of websites. With the help of web analytics, website owners, for example, can recognize at what time visitors visit their website and what content they are interested in. This enables them, for example, to better adapt the content of their websites to the needs of their visitors. For the purposes of web analytics, pseudonymous cookies and web beacons are often used to recognize returning visitors and thus obtain more precise analyses of the use of an online service.
